Event

ICPR Sponsored Periodic Lecture Series: A Research Methodology Series Event
Indian Council of Philosophical Research-Sponsored Periodic Lecture Series 2018-19
Date: 15th, 22nd, and 27th February 2019

Organized by: Department of Philosophy, Raja Peary Mohan College, Uttarpara, WB

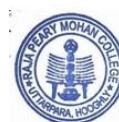

Program Coordinator: Dr. Sanjukta Bhattacharyya

Number of Participants: 155

The Department of Philosophy, Raja Peary Mohan College, Uttarpara, Hooghly, West Bengal has organized ICPR Sponsored Periodical Lectures on 15th, 22nd, and 27th February 2019. The College situated at the bank of the Hooghly River in the District of Hooghly, West Bengal and is a sub urban intellectual and culturally rich area of Uttarpara. Raja Peary Mohan College was established by Babu Joykrishna Mukherjee, a Zamindar of Uttarpara of Hooghly, West Bengal. He was an eminent philanthropist, promoter of education and a great social reformer of the late ninetieth century. His aim was to spread education in rural Bengal and was able to establish many schools in the district of Howrah, Hooghly and Burdwan. With this aim he established the Uttarpara Public Library (now known as Joy Krishna Library) and was instrumental in the establishment of the Uttarpara Government school. Finally in 1887 he was able to fulfill his cherished dream of establishing Uttarpara College—now known as Raja Peary Mohan College. The founder established the college at his own expense and after his death the legacy was carried forward by worthy son Raja Peary Mohan Mukherjee. His dedication and hard work to develop this college was fittingly honoured when the college was renamed as Raja Peary Mohan College after his memory in a function held on 4th October 1953. The Department of Philosophy was opened in 1956. Now the department has more than a 800 students with Honours and General Courses with 5 faculty members.

The department has organized the ICPR Sponsored Periodical Lectures on 15th, 22nd, and 27th February 2019. More than 100 students and 50 teachers of other departments, Research Scholars, Teachers from other Colleges have attended the lectures. Dr Sudip Kumar Chakrabarty Principal of Raja Peary Mohan College, inaugurated the Lecture series on 15th February 2019 and welcomed the speaker Prof Prahlad Kumar Sarkar of the day with bouquet and memento. On this occasion he also released a book on the writing and speeches of Raja Peary Mohan Mukherjee our patron benefactor of the college, edited by our Principal himself. Dr. Sanjukta Bhattacharyya, Head, Department of Philosophy, introduced the eminent speaker Prof. Prahlad Kumar Sarkar. She pointed out that such kind of events is the need of the hour and students should be given proper guidance and motivation in the concerned subject.

Prof. Prahlad Kumar Sarkar, retired Professor of the Department of Philosophy, Calcutta University, West Bengal, delivered his lecture on the theme —Social and Political Philosophy on 15th February 2019. His Topic was —State and Civil Society—Hegel and Marx. Prof. He discussed how Hegel designated state as the March of God on this Earth, because he thinks state as divine organization and by God. He never accepted the social contract theory because it says that, state is the result of contract and it came into existence due to spirit involved in it. He illustrated how Hegel understood state as being with usual development, it is superior to the

parts which are essentially associated to it and have significance only in so far as the whole gives them meaning. In this context he discussed Hegel's concept of civil society where, Hegel made a very important remark concerning civil society, singling it out from the sphere of state, marking the dialectical connection between different spheres and presenting a family and a separate individual in particular as an independent structural unit. According to Hegel in the framework of civil society, special emphasis is put on the interconnection between economic, political and social spheres, and their dialectical connection with the state. However, in a civil society concept, according to Hegel, the true freedom of citizens is not yet assumed. Prof Sarkar also discussed the concept of State and Civil Society of Karl Marx were pointed out how Marxist theory not only challenges the basic concepts of liberal state but also emphasizes that it enslaves majority men of society for the realization of its aims, it is to be abolished or smashed without which the emancipation of common men will never be possible. He also discussed Marx's civil society theory that does not possess the characteristics of historical materialism, just as Marx has admitted, at that time, he does not analyze civil society with the regard with material production, and he does not consider the relationship between the properties as the manifestation of the material relationships. In Marx's opinion, —civil society|| and —political society|| are both a historical category and analytical category. Marx argues the development of the civil society is the same process of for the development of individual interests to the class interests Both civil society and political society is the derivation of social division.

On the second day the speaker was Dr Krishna Chatterjee, Associate Professor in Philosophy, Calcutta University, West Bengal. She delivered his lecture on the theme —Post Independence Indian Philosophy|| on 22nd February 2019. Her Topic was —Bimal Krishna Motilal and Dharmmal. The lecture was divided into four sections. In the first section the speaker focused on how Dharma becomes a subject of philosophical enquiry. In the second section of the lecture Prof Chatterjee explained the various features of Dhrama from the standpoint of the Gita and the Mahabharata. In the third section of the lecture Prof Chatterjee dicussed on the comcept of Dharma from the view of Prof B.K. Motilal. In the last section the speaker concluded by saying that Dharma concept does not depen on personal greed, fame, etc. impartiality is the essential ingredient of Dharma. We consider this issue both sympathetically and also empathetically.

On the last and final day of the lecture series our honorable speaker was Prof (retd) Subirranjjan Bhattacharaya, Calcutta University, West Bengal. He delivered his lecture on the theme —Critical Thinking and Philosophizing || on 27th February 2019. He explained the meaning of critical thinking and how philosophers philosophize and critically think on different aspects. He distinguished the position of a scientist and philosopher regarding their methodology of explanation and how critical thinking and philosophizing becomes as important aspect in Philosophy. In this regard he discussed the philosophy of Decartes who argued for the need for a special systematic disciplining of the mind to guide it in critical thinking. Prof Bhattachryya discussed Decartes single first principle: I think. Thought cannot be separated from me, therefore, I exist Most famously, this is known as cogito ergo sum and also his dualistic theory of substance and skepticism regarding it. He Next we turn to the philosophy of Immanuel Kant's Critical philosophy where the critical philosophy movement sees the primary task of philosophy as criticism rather than justification of knowledge.

At the end of the program Dr. Sanjukta Bhattacharyya, Head, Department of Philosophy, Raja Peary Mohan College expressed the vote of thanks and indicated that the ICPR sponsored Periodical Lecture is a significant step to teach and familiarize basic themes of the subject through the experts of reputation.

Write Up of Periodical Lectures

Lecture I: State and Civil Society –Hegel and Marx

Prof. Prahlad Kumar Sarkar, Retd. Prof., Dept. of Philosophy, Calcutta University

Theme: Social and Political Philosophy

Date: 15th February 2019

Hegel Views on State and Civil Society:

Hegel designated state as the March of God on this Earth, because he thinks state as divine organization and by God. He never accepted the social contract theory because it says that, state is the result of contract and it came into existence due to spirit involved in it. To quote him, "the state is divine will as a present spirit which unfolds itself in the actual shade of an organized world. In simple words he considers the state as a handiwork of God and an embodiment of reason. It possessed a will and personalities of the individual Is which composed it. It was an end itself and was the sole agency which worked for the moral upliftment of mankind. It contributed to the enrichment of the individual 's personality by purging him of petty and self-elements". Hegel understood state as being with usual development, it is superior to the parts which are essentially associated to it and have significance only in so far as the whole gives them meaning. The state is real person and –its will is the manifestation of perfect nationality – the synthesis of universal and individual freedom. It is a natural growth. It is a whole greater than the parts which are intrinsically related to it and which have meaning only in so far as the whole gives them meaning. It is an end itself. Hegel thought that the individual had no right contrary to the state, and the autonomy for the individual consisted in blind submission to the commands of the state. Hegel understands the state as an end and the individual as a means for the fulfillment of that end. He considered state as an epitome of the highest social morality which laid the standard morality for the members in the state. Hegel thinks that society is less important than state in the same manner like society is more important than family.

Hegel stated that, an individual's specific acts are personifications of his freedom, not simply of his particular economic freedom (freedom of choice or freedom from obstruction) but of a more universal freedom, facilitated by awareness of law and established life. Hence, the procedure of civil society is an education of specific individual from his own self-interest and more universal ethical life, the progress of the contained universality of the moral will. With the help of education, the individual is socialized and develops the social elements like, talents, personality, and habits take on. There is doubt that social institutions arise from these interrelations, relatively, the disagreement of "Civil Society" can be seen to expressive, in its most general sense institutions are legitimate so far as economic and moral freedom accept them. The main idea of the civil society is an establishment of individual person's freedom. In

the framework of civil society, special emphasis is put on the interconnection between economic, political and social spheres, and their dialectical connection with the state. However, in a civil society concept, according to Hegel, the true freedom of citizens is not yet assumed.

Karl Marx on State and Civil Society:

Karl Marx's ideas about the state can be divided into three subject areas: pre- capitalist states, states in the capitalist era, and the state in post-capitalist society. Marxist theory of state, besides liberal state, is perhaps the most prominent theory. Marxist theory not only challenges the basic concepts of liberal state but also emphasizes that it enslaves majority men of society for the realization of its aims, it is to be abolished or smashed without which the emancipation of common men will never be possible. However, a problem about academic analysis of Marxist theory of state is that nowhere Marx has methodically analyzed the theory. Marx (1818- 1883) and his friend Engels (1820-1895) have made different comments and statements which constitute the fabric of state theory. In the Communist Manifesto they have said that the state is the —Political power, properly so called, is merely the organized power of one class for oppressing another|. In the same book we find them saying, —The executive of the modern state is but a committee for managing the common affairs of the whole bourgeoisiel.

Marx's civil society theory does not possess the characteristics of historical materialism, just as Marx has admitted, at that time, he does not analyze civil society with the regard with material production, and he does not consider the relationship between the properties as the manifestation of the material relationships. Most of his civil society theories are based upon the spiritual feature which Hegel has summed up from the civil society. Until 1844 economic and philosophic manuscripts have been taken into consideration, Marx begins to associate the civil society with the relationships between the material properties. Marx believed Families and civil society convert themselves to a state, and they are the original power of the changing process. The political society will not exist without the basis of the families and the civil society. After Marx has reversed Hegel's relationship of the civil society and the political society, the productivities has been analyzed under the condition of the material production, and the formation of the civil society has been explained from the perspective of economic development. In Marx's opinion, —civil society| and —political society| are both a historical category and analytical category. As a historical category, civil society refers to a particular period of social development, and in this period, the essential characteristic is the existing of the class interests. Marx argues the development of the civil society is the same process of for the development of individual interests to the class interests. Both civil society and political society is the derivation of social division. With the development of social productivity, interests' division comes into being. Private interests gradually develop into the class interests who always represent the contradictions between the special private interests and to prevalent public interests. This means civil society is also a society with class and class interests like political society and it cannot exist in the classless of primitive society or the communist society which also do not have the classes.

Lecture II: Bimal Krishna Motilal and Dharma

Dr. Krishna Chatterjee, Asst. Prof., Dept. of Philosophy, Calcutta University

Theme: Post Independence Indian Philosophy

Date: 22nd February 2019.

The lecture was divided into four sections. In the first section the speaker focused on how Dharma becomes a subject of philosophical enquiry. In this context she discussed that in the Indian culture, dharma is an intelligible concept in spite of its ubiquity ambiguity and multivalent character. Prof Chatterjee also discussed that in various contexts, the word dharma may mean the following: i) Law, ii) Justice, iii) Custom, iv) Morality v) Ethics, vi) Religion vii) Duty, viii) Nature and iv) Virtue.

In the second section of the lecture Prof Chatterjee explained the various features of Dhrama from the standpoint of the Gita and the Mahabharata. She has also discussed the meaning of the word Dhrama has changed over the ages from the Vedic period up to the present day and hence so many meanings have come to be associated with the term Dharma.

In the third section of the lecture Prof Chatterjee discussed on the concept of Dharma from the view of Prof B.K. Motilal. In this context the speaker has pointed out how Prof Motilal draw our attention to the fact that in the case of the word Dharma none of the earlier meaning was totally discarded while the new meanings which it acquired in the course of the time were also retained. The inevitable consequence of this was the ambiguity of the term Dharma. According to Motilal Dharma is a subject of rational enquiry. Dharma does not have definitive form. Dharma is ever illusive in nature. Prof Motilal also introduced the concept of moral luck in the concept of Dharma. According to him moral agent exercises practical wisdom. In the last section the speaker concluded by saying that Dharma concept does not depend on personal greed, fame, etc. impartiality is the essential ingredient of Dharma. We consider this issue both sympathetically and also empathetically.

Lecture III: Critical thinking and Philosophizing

Prof. Subirranjan Bhattacharyya, Prof., Dept. of Philosophy, Calcutta University

Theme: Critical Thinking and Philosophizing

Date: 27th February 2019.

Philosophy is in a sense about the search for _deep 'answers, and a refusal to be satisfied with what seems obvious. Critical thinking is the key tool. The relationship between the two is inseparable as thought is the precursor to philosophication. Critical thinking is the independent backbone of philosophy, as is shown in the case of constructing and refuting a rigorous argument. Critical Thinking was (and still is) one of the most important aspects of philosophy. In fact, we would not have the scientific method, or the foundations of mathematics without it. Subjective and objective questions are involved in philosophy, while only some objective questions can be related in science. Aside from finding answers, philosophy also involves

generating questions. Meanwhile, science is only concerned with the latter. Philosophy creates knowledge through critical thinking; science does the same by observing. Philosophy is based on reason; its methods utilize logical argumentation. Philosophy uses arguments of principles as the basis for its explanation. Philosophy entertains both subjective and objective types of questions. This means that aside from finding answers, it also resolves to generate questions. It raises critical questions and processes before finding out the answers. Philosophy is mostly involved with thinking and creating knowledge. This is philosophizing

René Descartes is considered to be the father of modern philosophy. Descartes argued for the need for a special systematic disciplining of the mind to guide it in critical thinking. He articulated and defended the need in thinking for clarity and precision. He developed a method of critical thought based on the *principle of systematic doubt*. He emphasized the need to base thinking on well-thought through foundational assumptions. Every part of thinking, he argued, should be questioned, doubted, and tested. Descartes is known arguably for the most famous words in the history of philosophical thought, "*I think therefore I am*". He uttered these words in his pursuit of a theory of knowledge that could dispel conclusively the skeptics claim that true knowledge is not possible. As a rationalist he held that only the mind could discover knowledge that is beyond doubt, with a certainty on par with mathematical concepts. To do this he came up with his method of doubt which was to doubt anything that could be false or was not necessarily true (such as the existence of an actual world outside of his mind). He eventually reached a belief that he thought was impossible to doubt – his own existence as a thinking thing! Hence, I think therefore I exist. His existence would then provide the foundation upon which he could build a theory of knowledge that would provide knowledge with certainty. Descartes believed that each substance had a principal attribute, an essence that made it unique, that made it the kind of thing it is. For example, he thought the principal attribute of matter is extension, and the principal attribute of mind is thinking – hence his substance dualism that a human being is a composite of mind and body. To know this principal attribute is to have a clear and distinct idea of what an object is. So, the first step to critical thinking and forming a judgement is to have a clear and distinct idea of what it is you are thinking of. Initially, Descartes arrives at only a single first principle: I think. Thought cannot be separated from me, therefore, I exist (Discourse on the Method and Principles of Philosophy). Most famously, this is known as cogito ergo sum (English: "I think, therefore I am"). Therefore, Descartes concluded, if he doubted, then something or someone must be doing the doubting, therefore the very fact that he doubted proved his existence. "The simple meaning of the phrase is that if one is skeptical of existence that is in and of itself proof that he does exist." These two first principles—I think and I exist—were later confirmed by Descartes's clear and distinct perception (delineated in his Third Meditation): that I clearly and distinctly perceive these two principles, Descartes reasoned, ensures their indubitability. Descartes concludes that he can be certain that he exists because he thinks. Descartes determines that the only indubitable knowledge is that he is a thinking thing. In this manner, Descartes proceeds to construct a system of knowledge, discarding perception as unreliable and, instead, admitting only deduction as a method.

Next, we turn to the philosophy of Immanuel Kant, a watershed figure who forever altered the

course of philosophical thinking in the Western tradition. "Critical philosophy" is also used as another name for Kant's philosophy itself. Kant said that philosophy's proper enquiry is not about what is out there in reality, but rather about the character and foundations of experience itself. We must first judge how human reason works, and within what limits, so that we can afterwards correctly apply it to sense experience and determine whether it can be applied at all to metaphysical objects. Attributed to Immanuel Kant, the critical philosophy movement sees the primary task of philosophy as criticism rather than justification of knowledge. Criticism, for Kant, meant judging as to the possibilities of knowledge before advancing to knowledge itself. The basic task of philosophers, according to this view, is not to establish and demonstrate theories about reality, but rather to subject all theories-including those about philosophy itself-to critical review, and measure their validity by how well they withstand criticism. He synthesized early modern rationalism and empiricism, set the terms for much of nineteenth and twentieth century philosophy, and continues to exercise a significant influence today in metaphysics, epistemology, ethics, political philosophy, aesthetics, etc. The fundamental idea of Kant's-critical philosophy was expressed in his different Critiques especially in his first Critique, the Critique of Pure Reason. Kant thought it was important for students not just to learn philosophy, but to learn how to philosophize and learn how to think.

Event

An awareness programme on polycystic ovarian syndrome

Speaker: Dr. Pratip Kumar Chakravorty, Senior Scientist, Institute of Reproductive Medicine

Date and Time: 11th December 2019; 12 pm IST

Organizer: Health Unit, RPMC in collaboration with the IQAC

No. of Participants: 141

A one-day Awareness Programme on Polycystic Ovarian Syndrome was organized by the Health Unit of RPMC in association with IQAC in the college premises (Hall 2) with Dr. Pratip Chakravorty Senior Scientist, Institute of Reproductive Medicine Kolkata, as the speaker. The programme was inaugurated by an introductory speech of Dr. Swagata Pal, Coordinator, Health Unit. Then the speaker was introduced by Dr. Pal and then Dr. Chakravorty started his lecture on PCOS. In the beginning of his lecture the speaker clearly explained the importance of the session, followed by the cause, symptoms, prevention, and remedies of PCOS. He also aware our students about the very common problem associated with the disease. The session was successfully completed by a question answer session with the students. About 116 students and 25 faculty members were participated in the programme.

Event

State Level Webinar: Intellectual Property Right and Innovation Towards Shaping Future: A Perspective of Post Covid World

Speaker: Dr. Mahuya Hom Choudhury, Scientist C- Patent Information Centre, West Bengal State Council of Science and Technology.

Date and Time: 1st July, 2020; 4 pm onwards (IST)

Organizer: Intellectual Property Rights Cell in association with the IQAC, Raja Peary Mohan College

No. of Participants: 300

Organising committee:

Convenor

Dr. Parna Banerjee, Assistant Professor in Commerce, Convenor of IPR Cell

Members

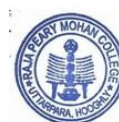

Dr. Pinaki De, Dr. Dilip Dey, Dr. Ashutosh Pal, Prof. Debashish Naskar, Prof. Sandipan Sarkar, Dr. Jaya Maji, Prof. Pratyusha Sengupta, Prof. Indrajit Mondal

About Webinar

The Intellectual Property Right (IPR) cell in association with the IQAC, Raja Peary Mohan College, Uttarpara had organized a Webinar on July 1, 2020. The topic of the webinar was “*Intellectual Property Right and Innovation Towards Shaping Future: A Perspective of Post Covid World*”. The speaker of the webinar was Dr. Mahuya Hom Choudhury, Scientist C- Patent Information Centre, West Bengal State Council of Science and Technology. Dr. Hom Choudhury explained the detailed procedure of application for patent and copyright for securing researchers’ innovation in respect of various research work that they are constantly involved in the post-COVID scenario. She also emphasized the need of awareness regarding the Intellectual Property Right among the students. She mentioned how encouraging it is for a student to get his/her research work patented and also how their writing abilities (Poems, Stories etc.) can be secured by copy right. Towards at the end of the programme she answered all the pertinent questions, in the Q&A session, of the students and the faculty members present with her proficiency and experience in the field of Intellectual property right. The participation in the programme was spontaneous, both on the part of the students as well as on the part of the faculty members of the college.

Objectives of the Webinar were:

- To make the participants understand about how to protect the rights of individual to enjoy their creations and invention.
- To encourage them about innovation.

The image shows a video recording of a presentation. On the left, a woman with dark hair, wearing a blue sari and a necklace, is speaking. On the right, a presentation slide is displayed. The slide has a grey background and features a central graphic of four stylized human figures in blue and white, each with a large green question mark above them. Below the graphic, the text 'Solution Focused' is written in a large, black, sans-serif font. Underneath that, in a smaller yellow font, it says 'Focus on Solution, NOT on Problem'. The slide also has a small yellow '\$' symbol at the top center. The video player interface includes 'PowerDirect' watermarks in the bottom corners of the video frame.

Webinar Topic: Understanding COVID-19 Disease Dynamics from Ecohealth Approach: A Research Methodology Series

Speaker: Dr. Parnali Dhar Chowdhury, Johns Hopkins University

Date and Time: 8th July 2020; 5 pm IST

Organizer: Dept. of Zoology in coordination with IQAC, RPMC

Registration link: <https://rb.gy/vbxgps>

No. of Participants: 45

A webinar entitled “Understanding COVID-19 disease dynamics from ecohealth approach: a research methodology series” has been organized by the Dept. of Zoology in coordination with IQAC, RPMC, as a part of the research methodology series under COVID-19 Lecture Series of Raja Peary Mohan College. Dr. Parnali Dhar Chowdhury from Johns Hopkins University was the invited speaker who delivered a lecture pertaining to the basic understanding of what COVID19 disease is, how it affects individuals and thereupon the society, *per se*, along with specific emphasis on the ecohealth approach from the community perspective. The lecture was attended by students, researchers, faculties and even general people outside the academic sphere owing to its immense contemporary relevance. Dept. of Zoology organized the lecture as an attempt to create social awareness about the ongoing COVID19 pandemic to inform how people should behave during a pandemic while remaining safe as well as helping others to fight the global health hazard.

Webinar Topic: Online question answer session “Alochonachakra 1” on COVID 19

Speakers: Dr. Debashis Mondal, MBBS, MS (Eye), Head, Department of Ophthalmology, District Hospital, Howrah.

Date and Time: 23rd July 2020; 12 pm IST

Organizer: Health Unit in collaboration with IQAC, Raja Peary Mohan College

You tube link: <https://www.youtube.com/watch?v=7wjF8VgTJnQ&t=1270s>

Number of Participants: 190

A webinar-based event entitled Online Question Answer Session “Alochonachakra 1” on COVID 19 has been organized by the Health Unit in collaboration with IQAC, Raja Peary Mohan College, Uttarpara, Hooghly. During pandemic situation several online awareness programmes were organized by Health Unit, RPMC in association with IQAC for the students. The series of these programs was named “Alochonachakra”. A virtual discussion Alochona Chakra Mala entitled “Queries on COVID was organised by Health Unit of Raja Peary Mohan College on 23rd July, 2020 at 12 noon on MS Teams. The programme was held in online mode and the resource person was Dr. Debashis Mondal, MBBS, MS (EYE), Head, Department of Ophthalmology, District Hospital, Howrah. The programme was inaugurated by an introductory speech by Dr. Swagata Pal, Convenor, Health Unit, and the resource person was introduced by Dr. Labonya Mondal, Convenor, Health Unit. Dr. Sudip Kr. Chakrabarty, Principal, Raja Peary Mohan College, Hooghly welcomed the speaker and the participants to the webinar and addressed welcome notes. The COVID 19 pandemic has wreaked havoc on everyone’s lives. But how can we prepare best to protect our health? To address this the programme was arranged with various quires from the students, teachers, and other non-teaching persons in our college. Before the programme we have collected all the questions related to our daily protection, best practices to protect ourselves during Corona pandemic.

During the programme the speaker explained the present pandemic situation and also the importance of stay safe in that situation. He also discussed various matter which we must look after and several steps to protect our health during pandemic conditions. Throughout the webinar there was engagement with questions and discussion. About 136 participants attended the meeting through MS teams platform and more than 190 people followed the event through YouTube live. Dr. Santanu Rana, IQAC coordinator, RPM college offered the vote of thanks to everyone associated with this webinar at the end of the session.

Event:

Webinar Topic: Sexual Harassment during COVID19 Pandemic

Speakers: Dr. Deboshruti Roychowdhury, Dean of Student Affairs, Ashoka University.

Date and Time: 24th July 2020; 3 pm IST

Organizer: Internal Complaints committee (ICC) in collaboration with IQAC, Raja Peary Mohan College

You tube link: <https://www.youtube.com/watch?v=Qlfr7RfGgEU>

Number of Attendees: 679

A Webinar on “Sexual Harassment during covid 19 pandemic” has been organized by the Internal Complaints committee (ICC) in collaboration with IQAC, Raja Peary Mohan College, Uttarpara, Hooghly on 24 th July, 2020 at 3:00 PM on MS-Teams platform. The main spirit in conducting the webinar was to inculcate awareness against sexual harassment in the context of the Covid 19 pandemic and possible precautionary measures that might be taken.

Over 100 participants attended the meeting through MS-teams platform **and** more than 679 people followed the event through YouTube live.

Dr. Deboshruti Roychowdhury, Dean of Student Affairs, Ashoka University was invited speaker for the webinar. Dr. Deboshruti Roychowdhury received her *Ph.D. from the school of Oriental and African Studies, London. Her areas of interest are Philosophy and Gender studies.*

Dr. Rajrupa Mitra, Head, Department of Economics started the session with an introduction and delivered welcome address.

Dr. Sudip Kr. Chakrabarty, Pricncipal, Raja Peary Mohan College, Hooghly welcomed the speaker and the participants to the webinar and addressed welcome notes. Dr. Santanu Rana, IQAC co-ordinator introduced the distinguished speaker Dr. Deboshruti Roychowdhury.

Dr. Deboshruti Roychowdhury discussed on the topic “Sexual Harassment during COVID19 pandemic” and shed some light on individual or collective response in inculcating awareness on sexual harassment during such Covid-19 like public health emergency when there is rising risk of all types of violence against women and girls, particularly domestic violence. She also siad that question still remains. Will sexual harassment become less for work-from-home environment? Probably not! Working from home may just move the harassment online.

Throughout the webinar there was engagement with questions and discussions and the webinar was a successful one.

We received good response from the audience and very good feedback. Some of the feedbacks are

- I think this webinar needs to be shared with many people
- A very enlightening discussion.
- It's a very good discussion.
- Excellent explanation
- This is an extremely relevant discussion

Dr. Sanjukta Bhattacharya, Member, IQAC, RPM college offered the vote of thanks to everyone associated with this webinar for making the programme a successful one.

E-Certificate of *participation* were distributed to all the participants within one week from the day of the webinar.

A webinar entitled “Macroeconomic policies for reviving economy following Covid-19 lockdown with a special focus on the future financing of health care: A Research Methodology Series” has been organized by the Department of Economics in association with the IQAC, Raja Peary Mohan College, as a part of the research methodology series of Raja Peary Mohan College. The speakers of the webinar were Dr. Surajit Das, Assistant Professor, CESP, JNU, New Delhi and Mr. Pritam Dutta, Research fellow, National Institute of Public Finance and policy, New Delhi. Both of them are ex-students of Department of Economics of this college. Both the speakers elaborated on socio-economic impact of covid-19 pandemic and outlined its impact on the health sector. They also suggested possible/ plausible course of action to shield the health sector from this crisis and revive the economy. The lecture was attended by students, researchers, faculties and even general people outside the academic sphere owing to its immense contemporary relevance.

Webinar Topic: A Research Methodology Series Lecture-Immune Response to SARS-CoV-2 and Treatment Strategies

Speaker: Dr. Dipyaman Ganguly, Principal Scientist and Associate Professor, IICB-Translational Research unit of Excellence, CSIR-Indian Institute of Chemical Biology, Jadavpur

Date and Time: 2nd August, 2020; 4 pm IST

Organizer: Dept. of Physiology in coordination with IQAC, RPMC

Registration link: <https://bit.ly/2CEcsmF>

You tube link: <https://www.youtube.com/watch?v=an-LI3wKJZw&t=5s>

No. of Participants: 360

A two-hour long webinar titled “A Research Methodology Series Lecture-Immune Response to SARS-CoV-2 and Treatment Strategies” was organized by the Department of Physiology in collaboration with IQAC on 2nd August, 2020. Three hundred and sixty (360) participants from different colleges and universities registered for the webinar. The speaker was the eminent immunologist Dr. Dipyaman Ganguly, Principal Scientist and Associate Professor, IICB-Translational Research unit of Excellence, CSIR-Indian Institute of Chemical Biology, Jadavpur. In the first part of the talk, immunological reactions in the body after infection with SARS-Cov 2 virus was lucidly explained. The last part of the talk dealt with strategies to tackle the infection in a way favourable to the human host. This included vaccines, antibodies, plasma therapy etc. After the power point presentation, the speaker answered the queries of the audience relating to various aspects of COVID 19 disease.

Webinar: Online question answer session “Alochonachakra 2” titled ‘Humour in the time of Corona

Speaker: Dr. Tanvir Reza, Respiratory Therapy Specialist, Tuberculous and chest Diseases Specialist, Pulmonologist

Date and Time: 8th August 2020; 7:00 pm IST

Organizer: Health Unit in coordination with IQAC, RPMC

YouTube Link: <https://www.youtube.com/watch?v=OzoI8RDkwj0>

No. of Online Attendees: 97

An online question answer session “Alochonachakra 2” titled ‘Humour in the time of Corona’ was arranged by Health Unit and IQAC of Raja Peary Mohan College held with Dr. Tanvir Reza, Respiratory Therapy Specialist, Tuberculous and chest Diseases Specialist, Pulmonologist as the speaker. The webinar was held on 8th August 2020 at 7:00 p.m. on the Microsoft Teams platform of Raja Peary Mohan College. It was the second in the series of webinars called AlochanaChakra organized by the Health Unit, Raja Peary Mohan College in collaboration with IQAC. The speaker of the evening was Dr Tanvir Reza, consultant pulmonologist of Apollo Hospitals. He was introduced to the audience by Dr Santanu Rana, coordinator, IQAC, Raja Peary Mohan College. Dr Reza shared his experience and views on various aspects of the pandemic for about half an hour before answering the queries of the participants in the question-answer session. He talked at length about the different types of masks, the suitability of each type in different environments, and methods of donning and doffing used masks. He showed the different types of masks and how one should wear them. He also explained how people with spectacles should be wearing masks in order to avoid fogging. According to him wearing masks was a better way of preventing the spread of the virus than the use of sanitisers. He emphasized that the general public should be sensible and should not overdo things like using sanitisers at regular intervals. he said that washing hands with soap and water what's the better option than sanitizers. Washing vegetables in sanitizers or soap water was totally unnecessary because we generally wash vegetables before cooking and the temperature during cooking also kills the virus. he repeatedly said that people should not panic and take on a normal diet during this time. he emphasized the importance of exercise and normal activities with precautions in order to keep up the Spirits in these times of stress and depression. In fact, he had started writing a Facebook post named humour in the time of Corona to keep up the spirit. In response to a question, he said that social visits cannot be avoided but transmission can be prevented if certain precautions are taken like sitting in an airy environment rather than a closed space preferably with standing fans instead of AC. He said that checking up temperature was not of much value as more than 50% of the population are asymptomatic and can have the virus but not the fever. He said that in the majority of the cases home surveillance of patients was enough and only a few required hospitalizations and many of his patients were treated by telemedicine.

The question-answer session was very elaborate and various aspects of the pandemic were discussed in detail.

No. of online attendees: 300

An international webinar has been organized by the Dept. of Chemistry & Dept. of Zoology in coordination with IQAC, RPMC, with two lectures on basic and applied concepts of chemistry and life science. Dr. Samit Guha elegantly presented the concept of artificial molecular machines including multi-subunit protein complexes acting as molecular motors within human, animal and plant cells, their biophysical and biochemical properties and how they can be synthetically assimilated for various applications including therapeutics. The lecture was focused to provide a glimpse of the translation relevance of biophysical aspects of molecular biology at a chemical interface. In the second lecture of the one-day webinar, Dr. Swastik De introduced the attendees with the basic notion of ribozymes, origin and evolution of diverse kinds of RNAs and proteins thereby clarifying the concepts on the origin of life from an RNA World perspective. The lecture mainly focused on the molecular basis of evolution where Dr. De provided fascinating real-life examples from his research on ribosomes. The lecture attracted more than 300 attendees from a wide spectrum including students, researchers, faculties and even general people outside the academic sphere owing to its immense contemporary translational relevance.

Artificial Molecular/ Supramolecular Machines

A molecular machine is an assemblage of parts that produce quasi-mechanical movements in response to specific external stimuli.

Development of simpler artificial molecular machine which mimic the complex biological machine and perform useful work is challenging.

Assemble of the parts of artificial molecular machines: **Noncovalent interaction:** H-bonding, electrostatic interaction, aromatic electron donor/acceptor interaction, mechanical bonds. **Covalent bond formation** using Cu(I)-catalyzed and Cu-free Click Chemistry.

It is critical to understand and eventually control the motion of the components of such machinery. It is challenging to control molecular motion and convert it into mechanical work that may be activated by using chemical fuels (external stimuli) such as pH, redox, light, heat, etc.

It is important to mimic translation, where protein synthesis is accomplished on the mRNA template in the ribosome, a biological molecular machine.

Developments of artificial membrane fusion machinery, drug delivery systems, molecular muscles, valve, molecular motor, molecular shuttle or cable car, molecular tweezers, molecular lift, molecular computer chips, medical nanorobots are required.

RNA Polymerase

DNA → RNA polymerase → RNA

A motor that moves along DNA track, decodes genetic message, polymerizes RNA using DNA as a template.

The 2006 Nobel Prize in Chemistry was awarded to Roger D. Kornberg for creating detailed molecular images of RNA polymerase during various stages of the transcription process.

RNA polymerase (purple) unwinding the DNA double helix and uses one strand (darker orange) as a template to create the single-stranded messenger RNA (green).

International Webinar on Quantum Biology in Nature- A Research Methodology Series

Organizer: Dept. of Physics in collaboration with IQAC, Raja Peary Mohan College

Speaker: Prof. Thorsten Ritz, Dept. of Physics and Astronomy, University of California, Irvine, USA

Date and Time: 14th August 2020; 10:00 am, IST

Registration link: <https://rb.gy/bhncrz>

YouTube Link: https://www.youtube.com/watch?v=VYfS655ln_o&t=2s

No. of attendees: 800

Webinar Report

A Webinar on “Quantum Biology in nature” was organized by the department of Physics in collaboration with IQAC, Raja Peary Mohan College, Uttarpara, Hooghly on 14th August, 2020 at 10:00 AM. Prof. Thorsten Ritz, Dept. of Physics and Astronomy, University of California, Irvine, USA was invited as the speaker. Prantick Dey, Head, Department of Physics chaired the session and delivered welcome address. Dr. Sudip Kr. Chakrabarty, Principal, Raja Peary Mohan College, Hooghly welcomed the speakers and the participants to the webinar and addressed welcome notes. Dr. Santanu Rana, IQAC co-ordinator introduced the resource person Prof. Ritz. Prof. Ritz has delivered the lecture on “Quantum Biology in Nature-A Research Methodology Series”. He explained the underlying physics behind biology and nature. He specifically focused on birds’ navigation. How birds can sense earth’s magnetic field and migratory birds come back to the original location from where they left. He explained all these in connection with quantum mechanics, quantum entanglement and so on. Throughout the webinar there was engagement with questions and discussion and the webinar was a successful one. Over 100 participants attended the meeting through MS-teams platform and more than 799 people followed the event through YouTube live. We received good response from the audience and very good feedback. Dr. Sanjukta Bhattacharya, Member of IQAC, RPM college offered the vote of thanks to everyone associated with this webinar for making the programme to be successful.

Webinar Notice

A one-day international webinar as a part of the Research Methodology Series will be organized by the Dept. of Physics in collaboration with IQAC, Raja Peary Mohan College, Uttarpara, Hooghly on 14th August 2020. The webinar will present a seminal lecture by Prof. Thorsten Ritz, Dept. of Physics and Astronomy, University of California, Irvine, USA, pertaining to the concepts of Quantum Biology and the underlying physics controlling the different biological processes in the universe.

All faculties and students of the college are cordially invited to attend the webinar based. You are requested to register for the webinar in the link: <https://rb.gy/bhncrz>

A Research Methodology Series lecture on National Education Policy 2020: An Appraisal

Organizer: Internal Quality Assurance Cell, Raja Peary Mohan College

Speaker: Dr. Srutinath Praharaj, Retired Associate Professor and Ex-HoD, Dept. of Commerce Raja Peary Mohan College, Uttarpara

Date and Time: 17th August 2020; 12:00 pm, noon, IST

Registration link: <https://rb.gv/j9m5gc>

YouTube Link: https://www.youtube.com/watch?v=xTyPW2U_B4g

No. of Attendees: 50

Education is an essential and indispensable element for the all-round development of any society and country and a comprehensive national education policy is formulated by a nation to fulfil this requirement. In August 2020, 'National Education Policy' (NEP), 2020 was approved by the cabinet. This policy aims for the major overhaul of the Indian education system. It is expected that the education system will be completely transformed by 2040. This will replace the old National Educational Policy, 1986. As education is a concurrent subject, implementation of the policy will require the approval of states. Dr. Praharaj critically analysed and discussed all the different aspects of NEP 2020. He forwarded his own views and discussed the issues with respect to NEP 2020.

Number of Participants: More than 300

A one-day state level webinar had been organised on 18/08/2020 by the Department of Mathematics, Raja Peary Mohan College in association with IQAC, Raja Peary Mohan College in which more than 300 participants, including teachers and students from our college and other colleges, attended. The speaker Prof. Debasis Sarkar was a renowned professor and head of the department of Applied Mathematics, Raja Bazar Science College, University of Calcutta, Kolkata. His specialization and major research area is Quantum Foundation and Quantum Information Theory. He has more than fifty research paper published in different journals of high esteem. Students and faculty members of department of Physics also participated in the webinar. It was very interesting and informative. It was divided into four sessions. The first session was introductory session. The Second session was the main session, i.e., the lecture session which was very lucid and informative. Then came the question-answer session in which both the students and faculty members took part actively. The final session was thank-giving session which was given by the co-ordinator of the IQAC of our college.

Introduction to Quantum Information and Quantum Computation + raj

From physical point of view, quantum physics deals with fundamental entities of physics

- particles like protons, electrons and neutrons (from which matter is built);
- photons (carry electromagnetic radiation);
- various "elementary particles" that mediate other interactions in physics.

Usually we call them particles in spite of the fact that some of their properties are totally unlike the properties of what we call particles in our ordinary classical world.

For example, a particle can go through two places at the same time and can interact with itself.

Because of that quantum physics is full of counterintuitive, mysterious and even paradoxical events.

Webinar topic: Online question answer session “Alochonachakra 3” entitled “Sanitization in Maintenance of Health”

Speaker: Dr. Nilanjan Dastidar, Chief Medical Officer, Dept. of Health, Malda, West Bengal

Date and Time: 16th January 2021, 11:00 am onwards, IST

Venue: Online platform, Raja Peary Mohan College

Organizer: Health Unit with Internal Quality Assurance Cell of Raja Peary Mohan College Uttarpara, Hooghly

No. of Registered Candidates: 184

YouTube Link: https://www.youtube.com/watch?v=km_0-Qi0qoU&t=24s

An online question answer session “Alochonachakra 3” entitled "Sanitization in maintenance of health" organized by Health Unit on MS Teams platform at 11 a.m. to 12 noon with Dr. Nilanjan Dastidar, Chief Medical Officer, Dept. of Health, Malda, West Bengal. as the speaker. The programme was initiated by DR. Swagata Pal and the speaker was introduced by Dr. Labonya Mandal, Coordinators Health Unit, RPMC. The theme of the webinar was “Water sanitization and Hand Hygiene”. In the beginning of the lecture the speaker first introduced us with different water borne diseases. Then he explained the importance and process of cleaning and sanitization in our daily life. During the entire session he informed us about importance of hand hygiene with several standard precautions we can take in day to day. He briefly explained several processes of maintenance of hand hygiene as well as preliminary steps before hand hygiene procedure. The programme ended with a prolonged question answer session with our students.

Event

Webinar Topic: International Day of Biological Diversity

Theme: Biodiversity Conservation and 6th Mass Extinction

Speaker: Dr. Tapan Saha.

Date and Time: 22nd May 2021, 07:30 p.m. onwards, IST

Venue: Online platform, Raja Peary Mohan College

Organizer: APC Roy Eco Club, in collaboration with Internal Quality Assurance Cell of Raja Peary Mohan College Uttarpara, Hooghly

YouTube Link: <https://youtu.be/sTNY7DeQTts>

No. of Participants: 300

APC Roy Eco Club in Collaboration with IQAC arranged a webinar programme to celebrate the *International Day of Biological Diversity* on 22-05-2021 at around 7:30 pm. This day was mainly celebrated to discuss the Biodiversity Conservation and 6th Mass Extinction by Dr. Tapan Saha

Flow of program:

On behalf of APC Roy Eco Club, Dr. Maitri Bose Biswas welcomed all the viewers and speakers for the above-mentioned programme. She gave a vivid introduction about the *International Day of Biological Diversity*, why is it celebrated, made a perfect stage for our main speaker to discuss the main theme of the days' webinar with the help of a ppt. He then introduced the speaker and requested him to discuss the main topic.

Dr. Tapan Saha then delivered his lecture on Biodiversity Conservation and 6th Mass Extinction. He lucidly and in a very simple manner described and detailed the Biodiversity Conservation. He described its importance, how it is helpful and how it has paved the way for future research.

The Lecture was followed by a short interaction session with the speaker.

This programme ended with a Vote of Thanks from Dr. Santanu Rana (Co-ordinator IQAC) and he pointed out the importance of this day and boosted the students for a brighter future. Almost 300 viewers participated in this webinar.

Open E-learning Resources: Panacea in the time of COVID-19 Crisis- A Research Methodology Series

Speaker: Mr. Vinod Kumar Mishra, Asst. Librarian of NIT, Rourkela.

Date and Time: 27/06/2021, 4:00 p.m. onwards, IST

Venue: Online platform, Raja Peary Mohan College

Organizer: Central Library, RPMC, in collaboration with Internal Quality Assurance Cell of Raja Peary Mohan College Uttarpara, Hooghly

YouTube Link: <https://www.youtube.com/watch?v=KqNtibZ3Xow&t=1672s>

Number of Participants: 424

A national level webinar on “Open E-learning Resources: Panacea in the time of COVID-19 Crisis- A Research Methodology Series” was organized by Central Library in collaboration with Internal Quality Assurance Cell of Raja Peary Mohan College Uttarpara, Hooghly on 27/06/2021, 4:00 p.m. onwards. The webinar was held on MS Team platform along with live streaming on YouTube for larger benefits. The event witnessed the participation of participants. More than 400 participants from all over India participated in this webinar.

Dr. Sudip Kumar Chakraborty, Principal of Raja Peary Mohan College delivered the inaugural address emphasizing the need to Open E-learning Resources in post COVID-19 era.

The programme started as per schedule and Librarian and organizer Dr. Sonali Dapsi extended warm welcome to delegates and the participants. Mrs. Shraboni Das, Librarian and organizer of Raja Peary Mohan College introduce the distinguished speaker Mr. Vinod Kumar Mishra, Asst. Librarian of NIT, Rourkela. Mr. Mishra emphasized that the E-resources plays a vital role in the all over world in COVID-19 crisis, every user must know the importance of e-resources, it is accepted by all kind of people because of its accessibility, affordability, usability and readability. He told about some important points that 1. The information preserves at standard interval and can be reserved always up-to-date in electronic media. 2. Smooth the progress of easy replication into new media and sharing the data. 3. Incorporation of special media (Image, Sound, Video etc.) 4. Afford hyper links to related additional resources. 5. The electronic resources unresponsive to environment exposure and if handle with care, it will prove huge stability which cannot be attain on paper-based print media. 6. Saves massive time by providing easy and immediate access without slaying time for processing, printing, binding and delivery. Question and answer session had been conducted by Mrs. Shraboni Das, Librarian of Raja Peary Mohan College. This program ended with a question-and-answer session where participants got a chance to clarify views regarding topic of using free and licence e-resources.

In the end, Dr. Santanu Rana, IQAC Co-Coordinator, had expressed the vote of thanks and pointed out that such lecture was very much relevant and beneficial for all the participants in the present situation. More than 289 registered and participated in the webinar and viewer 446 on YouTube channel.

Event

One-Day International Webinar on Current Perspectives on Disease Biology Research: A Research Methodology Series

Organizer: Dept. of Zoology in coordination with IQAC, RPMC

Date and Time: 18th September 2021; 1:45 -5:15 pm IST

Registration link: <https://bit.ly/3jcUNVB>

Webinar Link: <https://youtu.be/nNVPb7B4PnQ>

Lecture 1: Understanding the molecular underpinnings of ECM remodeling during fibrosis: A Mass-Spectrometry-based perspective

Speaker: Dr. Trayambak Basak, Assistant Professor, School of Basic Sciences, IIT-Mandi

Lecture 2: Painkillers: the price we pay for alleviating the pain

Speaker: Dr. Samik Bindu, Assistant Professor, Department of Zoology, Cooch Behar Panchanan Barma University

Lecture 3: Amino acid dysregulation in metabolic diseases

Speaker: Dr. Dipsikha Biswas, International Postdoctoral Fellow, Novo Nordisk Foundation Center for Basic Metabolic Research, University of Copenhagen, Denmark

YouTube Link: <https://www.youtube.com/watch?v=nNVPb7B4PnQ&t=255s>

No. of Attendees: 316

A one-day international webinar on Current Perspectives on Disease Biology Research has been held as a part of the Research Methodology Series of seminar/webinar. The webinar has been organized by the Department of Zoology in association with IQAC, RPMC, with three lectures on the current developments in the field of Biomedical Science. Due to the ongoing COVID19 pandemic the lectures were organized in online mode wherein more than 300 attendees from a wide spectrum including students, researchers, faculties and even general people outside the academic sphere joined owing to its immense contemporary translational relevance. Dr. Trayambak Basak discussed about the recent trends in molecular cardiac pathology research emphasizing on cardiac fibrosis and role of extracellular matrix remodeling therein. Dr. Samik Bindu's lecture dealt with gastric mucosal pathogenesis due to excess intake of pain-killers where he explained the mechanism underlying pain-killer induced mucosal tissue injury and ulcer formation. In his lecture Dr. Bindu cited some gastroprotective strategies relying on natural phytochemicals with anti-oxidant and anti-apoptotic attributes which bears the potency to resist gastric ulceration and may be opted for novel gastroprotective drug discovery research. In the third lecture of the day, Dr. Dipsikha Biswas enlightened about the current trends in metabolic disease research where she particularly emphasized on amino acid dysregulation as a potent trigger of pathology. She explained about the intricacies of the pathogenesis and discussed about the role of adipocyte triglyceride lipase in regulating disease progression. All the lectures were extremely informative and gave a precise idea about the recent trends in molecular pathology research. The lectures were followed by online technical discussion

Webinar Notice

A one-day International Webinar will be organized by the Dept. of Zoology in coordination with IQAC, RPMC on 18th September 2021. The webinar will be held in the Microsoft Teams. **All faculties and students of the college are cordially invited to attend the webinar based. You are requested to register for the webinar in the following link: <https://bit.ly/3jcUNVB>**

Webinar Details:

One-Day International Webinar on Current Perspectives on Disease Biology Research: A Research Methodology Series

Lecture 1: Understanding the molecular underpinnings of ECM remodeling during fibrosis: A Mass-Spectrometry-based perspective

Speaker: Dr. Trayambak Basak, Assistant Professor, School of Basic Sciences, IIT-Mandi

Lecture 2: Painkillers: the price we pay for alleviating the pain

Speaker: Dr. Samik Bindu, Assistant Professor, Department of Zoology, Cooch Behar Panchanan Barma University

Lecture 3: Amino acid dysregulation in metabolic diseases

Speaker: Dr. Dipsikha Biswas, International Postdoctoral Fellow, Novo Nordisk Foundation Center for Basic Metabolic Research, University of Copenhagen, Denmark

Date and Time: 18th September 2021; 1:45 -5:15 pm IST

Organizer: Dept. of Zoology in coordination with IQAC, RPMC

Invited Speakers

Dr. Trayambak Basak

Assistant Professor
School of Basic Sciences (SBS)
Indian Institute of Technology-Mandi

Title of Lecture:

Understanding the molecular underpinnings of ECM remodelling during fibrosis: A Mass-Spectrometry-based perspective

Lecture Schedule: 13:45-14:45 hrs (1:45-2:45 pm, IST)

Dr. Samik Bindu

Assistant Professor
Department of Zoology
Cooch Behar Panchanan Barma University

Title of Lecture:

Painkillers: the price we pay for alleviating the pain

Lecture Schedule: 15:00-16:00 hrs (3:00-4:00 pm, IST)

Dr. Dipsikha Biswas

International Postdoctoral Fellow
Novo Nordisk Foundation Center for Basic Metabolic
Research, University of Copenhagen, Denmark

Title of Lecture:

Amino acid dysregulation in metabolic diseases

Lecture Schedule: 16:15-17:15 hrs (4:15-5:15 pm, IST)

Emergent Phenomena: when more is different-A Research Methodology Series

Speaker: Prof. S. M. Bhattacharjee, Head, Department, Physics, Ashoka University.

Date and Time: 20/09/2021, 3:30-5:00 p.m. IST

Venue: Online platform, Raja Peary Mohan College

Organizer: Dept. of Physics, RPMC, in collaboration with IQAC, RPMC

Registration Link: <https://forms.gle/mbdnbF9pQcDzs1Ca7>

YouTube Link: <https://www.youtube.com/watch?v=IINWO-5n6EU>

Number of Viewer: More than 400

Department of Physics, Raja Peary Mohan College organised a distinguished lecture by eminent speaker Prof. S. M. Bhattacharjee, head of the dept. of Physics, Ashoka University on 20th September, 2021 from 3:30 pm to 5:00 pm on online platform in association with IQAC, Raja Peary Mohan College, Uttarpara, Hooghly. Dr. Jaya Maji, Department of Physics started the session with an introduction. Dr. Sukanta Barman, Head, Department of Physics delivered welcome address. Dr. Sudip Kr. Chakrabarty, Principal, Raja Peary Mohan College, Hooghly welcomed the speaker and the participants to the webinar and addressed welcome notes. Dr. Sudhin Kr. Bera, member of IQAC offered the vote of thanks to everyone associated with this webinar for making the programme a successful one. E-Certificate of participation were distributed to all the participants within one week from the day of the webinar.

The lecture was delivered by Prof. S. M. Bhattacharjee, Head of the Department, Physics, Professor of Physics Ashoka University was the invited speaker of the webinar. He is the ex-Professor of Institute of Physics, Bhubaneswar. He is the fellow of the Indian National Science Academy and Indian Academy of Sciences. He is a J. C. Bose National Fellow. His research interest is in theoretical condensed matter physics and biology-inspired physics.

All are familiar with the example of small molecules forming different states of matter e.g., solid or liquid or gas. One doesn't have to analyze individual water molecules to understand the behaviour of droplets, or droplets to study a wave. This ability to shift focus across various scales is the

essence of renormalization. But that's not the only one.

The physical laws necessary for the mathematical treatment of a large part of physics and the whole of chemistry are thus completely known, but the difficulty lies only in the fact that application of these laws leads to equations that are too complex to be solved.

The emergence of collective behavior distinct from individual members in many other situations like traffic jams, avalanches, earthquakes, and, of course, in biology are seen. For example, what causes those inexplicable traffic jams on open stretches of highway, the ones without any accidents, construction, or other obvious bottlenecks? This new field of emergent phenomena were addressed through examples.

The facts of research and innovation were well explained on the new emergent phenomena. Students who are highly motivated to pursue research career were benefited a lot. Students and faculty members from various colleges, universities attended the webinar. Over 70 participants attended the meeting through google-meet platform and more than 425 people followed the event through YouTube live. The webinar was a great success.

No. of Participants: 80

The Department of Economics in association with the IQAC, Raja Peary Mohan College, Uttarpara, Hooghly had organized a national level webinar on 30th October, 2021. The topic of the webinar was "A Discourse on Natural Disaster with a special reference to India". The speaker of the webinar was Dr. Montu Bose, Assistant Professor in Economics, Department of Business and Sustainability, Teri School of advanced Studies, New Delhi. He is an ex-student of Department of Economics of this college. The webinar was organized in virtual mode in Microsoft Teams platform. The lecture focused on the socio-economic impact of disasters in India while discussing its impact on the happiness and well-being of the people of India. The lecture aimed to sensitize the students for the various types of disasters with a special reference to India. The lecture also explained the possible/plausible course of action to shield the economy from these disasters. The lecture attracted a wide spectrum of attendees including students, researchers, faculties and even general people outside the academic sphere owing to its immense contemporary relevance.

Event

Webinar Topic: National Science Day Celebration

Theme: Raman Effect

Speaker: Mr. Avik Kr. Basu, Asst. Professor, Dept of Physics, RPMC

Date and Time: 28th February 2022 and 7:30 pm onwards

Organizer: APC Roy Eco Club in collaboration with IQAC, RPMC

Venue: MS Teams Platform of Raja Peary Mohan College

YouTube Link: <https://youtu.be/jNO7FazRleI>

Number of Participants: 250

APC Roy Eco Club in Collaboration with IQAC arranged a webinar programme to celebrate the National Science Day on 28th February, 2022 at around 7:30 pm. The college was under Election Commission during the period and hence the program was forced to be organised in a webinar online mode. This day was mainly celebrated to discuss the "RAMAN EFFECT" by Mr. Avik Kr. Basu (Asst. Prof Dept of Physics, RPMC).

Flow of Program:

On behalf of APC Roy Eco Club, Mr. Satadru Ghosh welcomed all the viewers and speakers for the above-mentioned programme.

Dr. Krishnanka Shekhar Gayen (Jt. Coordinator IQAC) followed the program and gave a vivid introduction about the NATIONAL SCIENCE DAY, why is it celebrated, the life of Sir C.V. RAMAN and made a perfect stage for our main speaker to discuss the main theme of the days' webinar with the help of a ppt. He then introduced the speaker and requested him to discuss the main topic.

Mr. Avik Kr. Basu then delivered his lecture on RAMAN EFFECT. He lucidly and in a very simple manner described and detailed the RAMAN EFFECT. He described its importance, how it is helpful and how it has paved the way for future research.

This programme ended with a Vote of Thanks from Dr. Maitri Bose Biswas (Convenor APC ROY Eco Club) and she pointed out the importance of this day and boosted the students for a brighter future. Almost 250 viewers participated in this webinar.

Seminar Report

Identification and characterization of sperm-specific components required for female meiosis in *C. elegans*: A Research Methodology Series

Speaker: Dr. Rudra Prasanna Banerjee, Post-Doctoral Research Scholar Seattle Children's Hospital

Date and Time: 23rd March 2022 and 1:30 pm onwards

Organizer: Dept. of Zoology in collaboration with the Research Sub-committee and IQAC

Venue: Centenary Hall, Raja Peary Mohan College

Number of Participants: 72

This lecture was organized by the Dept. of Zoology in the physical mode after the long span of online mode of seminars and teaching due to the menace of COVID19. Dr. Rudra Prasanna Banerjee is an alumnus of this college and lucidly delivered his lecture in a very interesting and informative manner through constant interaction with the students. Dr. Banerjee explained how to identify the sperm specific components in female meiosis in *C. elegans*. Further he also explained how to characterize the sperm specific proteins and their dynamics in regulating meiosis in *C. elegans*. The lecture was attended by students and faculties of Raja Peary Mohan College. Dept. of Zoology organized the lecture as an attempt to enlighten the students on recent developments in the field of molecular reproductive biology which can encourage them to pursue higher studies in the concerned field and subsequently inspire towards seeking career in biological research and academia.

Seminar Notice

A one-day seminar will be organized by the Dept. of Zoology in collaboration with the Research Sub-committee and IQAC on 23rd March 2022. Dept. of Zoology feels immensely proud to mention that the speaker, Dr. Rudra Prasanna Mukherjee, is an alumnus of this department. The lecture entitled "Identification and characterization of sperm-specific components required for female meiosis in *C. elegans*" will certainly enlighten us on recent developments in the field of molecular reproductive biology.

Students of the Dept. of Zoology are hereby directed to mandatorily attend the aforesaid seminar.

The presence of all the faculties of the college is highly solicited in the seminar based on their convenience.

All students of the college are cordially invited to attend the seminar based on their convenience and availability.

Seminar Details:

Topic: "Identification and characterization of sperm-specific components required for female meiosis in *C. elegans*: A Research Methodology Series"

Event

Seminar Topic: Trends in Aquarium Fish keeping and Aquaculture: A Research Methodology Series

Date and Time: 9th April 2022; 11:30 am IST

Venue: Centenary Hall, Raja Peary Mohan College

Organizer: Dept. of Zoology in collaboration with Research Sub-committee & IQAC, RPMC

Speaker: Subrato Ghosh, Fishery Extension Officer, Directorate of Fisheries, Government of West Bengal at South 24 Parganas Headquarters

Number of Participants: 73

Lecture 1: Aquarium Fish Keeping

Lecture 2: Induced Breeding and its Reproductive Physiology

Report: This is a lecture which was organized by the Dept. of Zoology in the physical mode. The speaker Mr. Subrato Ghosh is a very eminent person in the field of fishery and aquaculture with first-hand knowledge about the application of the subject in regards to state regulatory authorities because of his position as Fishery Extension Officer, Directorate of Fisheries, Government of West Bengal. He lucidly delivered his lecture in a very interesting and informative manner through constant interaction with the students and faculties. The lecture was attended by students and faculties of Raja Peary Mohan College. Dept. of Zoology organized the lecture as an attempt to enlighten the students on recent developments and prospects in the field of fisheries and aquaculture. The speaker clearly mentioned about the state-of-the-art techniques used in aquaculture, prospects of aquarium fish keeping as a sustainable employment opportunity for the state. He also focused on the entrepreneurial aspects of aquarium fish keeping as a growing branch of cottage industry. He motivated the students to think seriously about fishery as a prospective career option and encouraged them to pursue higher studies in the concerned field. He also elaborated about the scope of research in the field of fishery sciences and highlighted the career options in the relevant field both for biological research/academia as well as industry/NGO/entrepreneurship.

Seminar Notice

A one-day seminar will be organised by the Department of Zoology in collaboration with the IQAC on 09th April, 2022. The lecture entitled “Trends in Aquarium Fish keeping and Aquaculture: A Research Methodology Series”, to be delivered by Mr. Subrato Ghosh, will be immensely beneficial to the students of Zoology and enlighten them in the prospects of fisheries.

Students of the Dept. of Zoology are hereby directed to mandatorily attend the aforesaid seminar.

The presence of all the faculties of the college is highly solicited in the seminar based on their convenience.

All students of the college are cordially invited to attend the seminar based on their convenience and availability.

Seminar Details:

Topic: “Trends in Aquarium Fish keeping and Aquaculture: A Research Methodology Series”

Speaker: Mr. Subrato Ghosh, Fisheries Extension Officer, Directorate of Fisheries, South 24 Parganas, Government of West Bengal

Venue: Centenary Hall, Raja Peary Mohan College

Time: Lecture 1 - 11 a.m – 12:15 p.m. – Aquarium Fish Keeping

Lecture 2 - 12:30 p.m. – 2:00 p.m. – Induced Breeding and its Reproductive Physiology

Date and Time: 25th April 2022, 12:30 p.m. IST

Venue: Room No.: 201, Raja Peary Mohan College

Organizer: Dept. of Chemistry, RPMC, in collaboration with IQAC, RPMC

Number of Participants: 63

A one-day national seminar was organized by Dept. of Chemistry, RPMC, in collaboration with IQAC, RPMC on the topic "Ore Processing & Extraction - A Research Methodology Series". The aim of the seminar is to make the participants understand about the application of Chemistry in real world, mainly in Industries. The speaker was Dr. Anuradha Mitra, an alumnus of this College and currently she is a Senior Scientist at Aditya Birla Science & Technology Pvt. Co. Ltd., Mumbai. In the beginning of the talk, our alumnus Dr. Anuradha Mitra - Senior Scientist, Aditya Birla Science & Technology Pvt. Co. Ltd gave a brief introduction about the industry she is associated with. She mentioned the vision & mission of ABSTC - "To create technologies and products that differentiate, protect and grow the market share and profitability of Aditya Birla group". Basically, there are four roles of ABSTC - (i) New Technology Department (ii) Business Sustainability (iii) New Product Development (iv) Technical Solutions to Manufacturing Units. Different departments include - Metals and Mining, Chemical Science, Pulp and fibre, Material Science, engineering and Simulation Technology and Analytical Characterization. She then directly moved to her topic of discussion about Rock phosphates - Phosphoric acid & phosphates and Bauxite ore. She slowly addressed our students about the details of ore mining for Rock phosphates, its processing and analyzing techniques which included titrimetric / XRF analysis for quantifying major elements and ICP-OES/ICP-MS Analysis for quantifying trace elements. She even gave references from current curriculum for better understanding of UG level students and to attract them to the industrial sphere. She discussed in detail about the constituents of rock phosphates and its beneficiation. Finally, she discussed about the manufacturing layout for conversion of rock phosphate to Phosphoric acid and its applications. At the end she conducted a question - answer session, where the students asked about their queries and our speaker addressed them at their level. The student enjoyed a lot and asked her about suggestions and guidance for Industry as a career option. She was able to motivate our students for higher studies.

Seminar Notice

A national seminar will be organized by the Dept. of Chemistry in collaboration with the IQAC, RPMC on 25th April 2022, Monday on the topic "Ore Processing & Extraction - A Research Methodology Series". This is a part of the research methodology series lecture. The seminar will be held in the Department of Chemistry and Room No. 201 of the college.

Students of the Dept. of Chemistry are hereby directed to mandatorily attend the aforesaid seminar.

The presence of all the faculties of the college is highly solicited in the seminar based on their convenience.

All students of the college are cordially invited to attend the seminar based on their convenience and availability.

Event

State Level Seminar: Intellectual Property Right on Digital Environment

Speaker: Dr. Kishor Satpathy, Chief Librarian at Indian Statistical Institute, Kolkata

Date and Time: 26th April, 2022; 11.30 am to 1.30 pm (IST)

Organizer: Intellectual Property Rights Cell in association Central Library, RPMC and IQAC, Raja Peary Mohan College

No. of Participants: 79

Organising committee:

Convenor

Prof. Bandana Mondal, Assistant Professor, Convenor of IPR Cell

Dr. Sonali Dapsi, Librarian, Member of IPR Cell

Members

Dr. Parna Banerjee, Prof. Debasish Naskar, Prof. Arup Banik, Mrs. Shraboni Das, Prof. Indrajit Mondal, Prof. Arindam Mukherjee

About Seminar:

The IPR Cell in association with the IQAC, Raja Peary Mohan College, Uttarpara, Hooghly had organized a state level seminar on 26th April, 2022. The topic of the Seminar was "INTELLECTUAL PROPERTY RIGHT ON DIGITAL ENVIRONMENT". The speaker of the seminar was Dr. Kishor Satpathy, Chief Librarian at Indian Statistical Institute, Kolkata. The aim of the seminar was to make understand the participants about how much important is the Intellectual Property Right on the digital environment. It also helps to understand how to protect the Intellectual Properties from the illegal users.

Objectives of the Seminar were:

- To make the participants understand about how to protect the rights of individual to enjoy their creations and invention.
- To encourage them about innovation.
- To sensitise the students about fair use of internet environment.

Seminar Topic: Disease Biomarker: Concept, Technology and Application- A Research Methodology Series

Speaker: Dr Srikanta Goswami, Associate Professor of National Institute of Biomedical Genomics, Kalyani, Nadia, West Bengal.

Date and Time: 7th May 2022, 12:30 p.m. IST

Venue: Department of Physiology, Raja Peary Mohan College

Organizer: Department of Physiology, RPMC, in collaboration with IQAC, RPMC

Number of Participants: 25

A one-day state level seminar was organized by Department of Physiology in collaboration with IQAC of Raja Peary Mohan College on "Disease Biomarker: Concept, Technology and Application- A Research Methodology Series" on 7.5.2022. Dr Srikanta Goswami, Associate Professor of National Institute of Biomedical Genomics, Kalyani, Nadia, West Bengal was the invited keynote speaker. All the honours student and students having physiology as a general subject and teachers of Dept. of Physiology participated in this state level seminar.

The purpose of the seminar was to provide a conceptual framework among the students and teachers to understand the roles of biomarkers in current research and clinical practice, particularly in the fields of different chronic diseases. The seminar was very insightful and enriching for both the students and teachers as the topic of the seminar was very relevant in understanding the entire spectrum of disease from the earliest manifestations to the terminal stages. Biomarkers are used as an indicator of a biological factor that represents either a subclinical manifestation, stage of the disorder, or a surrogate manifestation of the disease. Dr Goswami was fabulous a speaker having a profound knowledge about the topic. Overall, the seminar was very helpful and a great learning experience for all the participants.

Seminar Notice

A state level seminar will be organized by the Dept. of Physiology in collaboration with the IQAC, RPMC on 7th May 2022 on the topic "Disease Biomarker: Concept, Technology and Application- A Research Methodology Series". This is a part of the research methodology series lecture. The seminar will be held in the Department of Physiology of the college.

Students of the Dept. of Physiology are hereby directed to mandatorily attend the aforesaid seminar.

The presence of all the faculties of the college is highly solicited in the seminar based on their convenience.

All students of the college are cordially invited to attend the seminar based on their convenience and availability.

Event

State Level Workshop: Intellectual Property Rights and Research Ethics

Resource Person: Mr. Arnab Bhattacharyya, NIPAM Officer Examiner of Patents & Designs (Gr 'A' Gazetted), The Patent Office, Kolkata, DPIIT, Ministry of Commerce & Industry, Govt. of India.

Date and Time: 11th May, 2022; 2:00 pm onwards (IST)

Organizer: Intellectual Property Rights Cell in association with the IQAC, Raja Peary Mohan College

Number of Participants: 25

Organising committee:

Coordinators:

Prof. Bandana Mondal, Assistant Professor, Convenor of IPR Cell & Dr. Sonali Dapsi, Librarian, Member of IPR Cell

Members:

Dr. Parna Banerjee, Prof. Debasish Naskar, Prof. Arup Banik, Mrs. Shraboni Das, Prof. Indrajit Mondal, Prof. Arindam Mukherjee

About the Workshop:

The IPR Cell in association with the IQAC, Raja Peary Mohan College, Uttarpara, Hooghly had organized a workshop on **11th May, 2022**. The topic of the workshop was **“Intellectual Property Rights and Research Ethics”**. The resource person of the workshop was Mr. Arnab Bhattacharyya, Examiner of Patents & Designs (Gr 'A' Gazetted), The Patent Office, Kolkata, DPIIT, Ministry of Commerce & Industry, Govt. of India. The aim of the seminar was to make understand the participants about how much important is the Intellectual Property Right in the area of ethical research.

Objectives of the Workshop were:

- To make the participants understand about how much important is the Intellectual Property Right in the area of ethical research.
- To make the students aware about fair use of pre-published research articles as references.

Seminar Topic: A Research Methodology Series Lecture on Genetics, Evolution and Research

Speaker: Dr. Barnali Basu Roy, Associate Professor, Department of Physiology, Surendranath College.

Date and Time: 11th May, 2022, 2:30 p.m. IST

Venue: Department of Physiology, Raja Peary Mohan College

Organizer: Department of Physiology, RPMC, in collaboration with IQAC, RPMC

No. of Participants: 17

Dr. Barnali Basu Roy, Associate Professor, Department of Physiology, Surendranath College delivered a lecture titled “Genetics, evolution and research” at the Department of Physiology, Raja Peary Mohan College on 11th May, 2022. The lecture was a part of the Research methodology Series and was attended by departmental teachers and honours students of the department.

Dr. Basu Roy was welcomed by the Head of the department, Dr. Swagata Pal, with a bouquet of flowers and introduced to the audience by Dr. Labonya Mandal. In her brief speech before the talk, Dr. Barnali Basu Roy fondly remembered her days in the department as a student and expressed her joy and gratitude in being invited to deliver a lecture in her alma matter. In her lucid speech about Epigenetics which is the study of how cells control gene activity without changing the DNA sequence, she explained how factors beyond the genetic code influenced gene expression. Epigenetic changes are modifications to DNA that regulate whether genes are turned on or off. These modifications in the DNA do not change the sequence of DNA building blocks. Within the complete set of DNA in a cell (genome), all of the modifications that regulate the activity (expression) of the genes are known as the epigenome.

Date: _____

Dr Basu Roy explained that because epigenetic changes help determine whether genes are turned on or off, they influence the production of proteins in cells. This ensures that each cell produces only proteins that are necessary for its function. Patterns of epigenetic modification vary among individuals, in different tissues within an individual, and even in different cells within a tissue. Environmental influences, such as a person's diet and exposure to pollutants, can impact the epigenome. Epigenetic modifications can be maintained from cell to cell as cells divide and, in some cases, can be inherited through the generations. A common type of epigenetic modification is DNA methylation. DNA methylation involves the attachment of small chemical groups called methyl groups (each consisting of one carbon atom and three hydrogen atoms) to DNA building blocks. When methyl groups are present on a gene, that gene is turned off or silenced, and no protein is produced from that gene. Another common epigenetic change is histone modification. Histones are structural proteins in the cell nucleus. DNA wraps around histones, giving chromosomes their shape. Histones can be modified by the addition or removal of chemical groups, such as methyl groups or acetyl groups.

The chemical groups influence how tightly the DNA is wrapped around histones, which affects whether a gene can be turned on or off. Altered gene activity, including that caused by epigenetic errors, is a common cause of genetic disorders. Conditions such as cancers, metabolic disorders, and degenerative disorders have been found to be related to epigenetic errors. Showing data generated in her laboratory at Surendranath College, Dr. Basu Roy explained her research interest is focused on understanding the relationship between the genome and the chemical compounds that modify it. In particular, she is studying the effects of epigenetic modifications and errors on gene function, protein production, and human health.

Event

National Level Webinar: Referencing, Citation and Copyright

Speaker: Dr. Sandeep Pathak, Deputy Librarian, IISER, Bhopal

Date and Time: 29th June, 2022; 3.30 pm to 5.00 pm (IST)

Organizer: Intellectual Property Rights Cell in association with the IQAC, Raja Peary Mohan College

Number of Participants: 66

Organising committee:

Programme Coordinators:

Dr. Parna Banerjee, Assistant Professor, Convenor of IPR Cell

Mrs. Shraboni Das, Librarian, Member of IPR Cell

Members:

Prof. Bandana Mondal, Assistant Professor, Joint Convenor of IPR Cell, Prof. Debasish Naskar, Dr. Sonali Dapsi, Prof. Arup Banik, Prof. Indrajit Mondal, Prof. Arindam Mukherjee.

About the Webinar:

The IPR Cell in association with the IQAC, Raja Peary Mohan College, Uttarpara, Hooghly had organized a national level webinar on 29th June, 2022. The topic of the webinar was “**Referencing, Citation and Copyright**”. The speaker of the webinar was **Dr. Sandeep Pathak**, Deputy Librarian, IISER, Bhopal. The aim of the webinar was to make understand the participants about the legal aspects of copyright that protects original works of ownership. It gives an exclusive right to do or authorize others to do certain acts in relation to literary, dramatic, musical, and artistic works, cinematography and sound recordings. The webinar also focussed on the Referencing process that allows the researchers to acknowledge the contribution of other writers and researchers in their work.

Objectives of the Webinar were:

- To make participants aware of different referencing and citation styles and software relating to it.
- To encourage them to protect their original work by making them aware of various legal aspects of copyright.

Citation Styles

The Modern Language Association (MLA) establishes values for acknowledging sources used in a research paper. **MLA citation style** uses a simple two-part parenthetical documentation system for citing sources: Citations in the text of a paper point to the alphabetical Works Cited list that appears at the end of the paper.

1. Author (last, first) 2. Title of Source. (in quotation marks)

Xue, Shiqi. "Chinese Lexicography Past and Present." *Dictionaries: Journal of the Dictionary Society of North America*, vol. 4, 1982, pp. 151-169.

3. Title of Container, (in italics) 4. Number, 5. Location (page numbers)

6. Number, 7. Publication Date, 8. Location (page numbers)

Event

State Level Seminar: Intellectual Property Law

Speaker: Prof. (Dr.) Prem Kumar Agarwal, Professor and Head, Department of Law, Hooghly Mohsin College

Date and Time: 11th November, 2022; 3.30 pm to 5 pm (IST)

Organizer: Intellectual Property Rights Cell in association with the IQAC, Raja Peary Mohan College

Number of Participants: 92

Organising committee:

Convenor (Programme Co-ordinator(s)):

Prof. Bandana Mondal, Assistant Professor, Convenor of IPR Cell

Dr. Sonali Dapsi, Librarian, Member of IPR Cell

Members

Dr. Parna Banerjee, Prof. Debasish Naskar, Prof. Arup Banik, , Mrs. Shraboni Das, Prof. Indrajit Mondal, Prof. Arindam Mukherjee

About the Seminar:

The Intellectual Property Right Cell in association with IQAC, Raja Peary Mohan College, Uttarpara had organized a seminar on 11th November, 2022. The topic of the seminar was "**Intellectual Property Law**". The speaker of the seminar was **Prof. (Dr.) Prem Kumar Agarwal, Professor and Head, Department of Law, Hooghly Mohsin College**. The speaker elaborated on the various aspects of Intellectual Property Law and addressed how to protect our intellectual property in different dimensions.

Objectives of the Seminar were:

- To discuss about the different types of intellectual property.
- To make the participants understand about how to protect the intellectual properties from illegal use.
- To make students aware of certain laws and regulations regarding IPR.

Event

Workshop Topic: A 2-day Workshop on FORTRAN - Research Methodology Series Event

Speaker: Dr. Shiladitya Banerjee, Assistant Professor, Midnapore College, West Bengal.

Date and Time: 28th and 29th November 2022, 11:00 a.m. onwards, IST

Venue: Dept. of Chemistry and Computer Laboratory, Raja Peary Mohan College

Organizer: Department of Chemistry

Target Audience: Semester – V Chemistry (Hons.) students

Number of participants: 25

A two-day long state level workshop on “FORTRAN” will be organized by the Dept. of Chemistry on 28th and 29th November 2022. This event is a part of the research methodology series. The objective of the workshop is to make the students familiar with the FORTRAN language at a basic level and to develop the skills to perform: numerical calculations relevant to chemical and physical sciences as per curriculum and beyond. Dr. Shiladitya Banerjee was the resource person for these two days.

The workshop was divided into two parts – (a) Theoretical and (b) Practical

Day 1

- Basic program writing
- Matrix addition & subtraction
- Matrix multiplication
- Matrix representation
- Reading data from a text file

Day 2

- Basic implementation of Simpson and Trapezoidal rule
- Integration in program
- C_{rms} determination

The workshop explored the FORTRAN keywords, commands and logical expression. The implementation of iterative algorithms was explored. The skills to construct function and subroutine was developed. Using FORTRAN language, solution for numerical differentiation, numerical integration and finding roots of algebraic equations were discussed. Few simple physical or chemical systems were discussed.

Sub: Invitation to conduct a 2-day workshop on FORTRAN at Raja Peary Mohan College.

Sir,

This is to request you to kindly accept our proposal to share your expertise through a 2-day workshop on FORTRAN at Raja Peary Mohan College, Uttarpara, Hooghly on 28th November (Monday) and 29th November, 2022 (Tuesday) from 10 a.m. – 5 p.m. This workshop will be held exclusively for our B.Sc. Chemistry Honours (Semester – 5) students.

Looking forward for your positive response.

Thanking you,
yours sincerely.

Event

Managing Career Choices in VUCA (Volatile, Uncertain, Complex and Ambiguous) World

Speaker: Dr. Sharmistha Banerjee, Professor, Dept. of Business Management, University of Calcutta

Date and Time: 7th December 2022, 2:30 pm onwards (IST)

Organizer: Entrepreneur Development Cell in association with IQAC, Raja Peary Mohan College

Organizing Committee

Chief Patron: Dr. Sudip Kumar Chakrabarty

Coordinator: Debasish Naskar

Number of Attendees: 249

About the Webinar

The intention of the webinar was to make participants understand the about various entrepreneurial opportunities in this current digital age. This helped the participants to understand the pros and cons associated with the opportunities in this field. The resource person also discussed some case study relating to social entrepreneurship (Planet Read, ZMQ Technology, Goonj, etc.). After all the lectures and discussions of the resource persons, a question answer session between our participants and resource persons was conducted so that participants could get clarification about their quarries and ambiguities.

Objectives of the Seminar

- To understand the VUCA (Volatile, Uncertain, Complex and Ambiguous) World.
- Find some way in this VUCA World to manage the career choices.
- Discuss the strategies to survive in VUCA world.
- To know about the hurdles in any entrepreneurial journey in VUCA world.

Discussion Theme

- Concept of VUCA world.
- VUCA world challenges and solutions.
- Essentials skills and qualities to thrive in the VUCA world.
- Managing career choices in VUCA world.
- Hurdles in any entrepreneurial journey in this VUCA world.

Event

State Level Seminar: Intellectual Property Rights (IPR) for Social Media Influencers and Digital Content Creators: Awareness regarding related Acts in India

Speaker: Prof. Riya Ray, Assistant Professor in Law, Goenka College of Commerce and Business Administration

Date and Time: 15th December, 2022; 3:30 pm onwards (IST)

Organizer: Intellectual Property Rights Cell in association with the IQAC, Raja Peary Mohan College

Number of Participants: 108

Organising committee:

Convenor (Programme Co-ordinator(s)):

Dr. Parna Banerjee, Assistant Professor, Convenor of IPR Cell

Members

Prof. Debasish Naskar, Prof. Arup Banik, Dr. Sonali Dapsi, Mrs. Shraboni Das, Prof. Indrajit Mondal, Prof. Arindam Mukherjee

About the Seminar:

The Intellectual Property Right Cell in association with IQAC, Raja Peary Mohan College, Uttarpara had organized a seminar on “**Intellectual Property Rights (IPR) for Social Media Influencers and Digital Content Creators: Awareness regarding related Acts in India**” on **15th December, 2022 (Thursday)** from **3:30 pm**. The speaker of the seminar was **Prof. Riya Ray, Assistant Professor in Law, Goenka College of Commerce and Business Administration**. The speaker elaborated on the various aspects of Intellectual Property Law regarding Social Media handling and digital content creations.

Objectives of the Seminar were:

- To make the participants, specifically those who are interested in social media Influencing and Digital Content Creation, to understand about how to protect their content from illegal use.
- To make the participants aware of certain laws and regulations regarding IPR in case of Social Media handling and digital content creations.

Event

State Level Seminar: Access to Medicine and IPR

Speaker: Dr. Sougata Talukdar, Assistant Professor in Law, Goenka College of Commerce and Business Administration

Date and Time: 24th March, 2023; 12:30 pm onwards (IST)

Organizer: Intellectual Property Rights Cell in association with the IQAC, Raja Peary Mohan College

Number of Participants: 154

Organising committee:

Convenor (Programme Co-ordinator(s)):

Dr. Parna Banerjee, Assistant Professor, Convenor of IPR Cell

Members

Prof. Debasish Naskar, Prof. Arup Banik, Dr. Sonali Dapsi, Mrs. Shraboni Das, Prof. Indrajit Mondal, Prof. Arindam Mukherjee

About the Seminar:

The Intellectual Property Right Cell in association with IQAC, Raja Peary Mohan College, Uttarpara had organized a seminar on “Access to Medicine and IPR” on **24th March, 2023 (Friday)** from **12:30 pm**. The speaker of the seminar was **Dr. Sougata Talukdar, Assistant Professor in Law, Goenka College of Commerce and Business Administration**. The speaker elaborated on the various aspects of Intellectual Property Law relevant for pharmaceutical sector in India.

Objectives of the Seminar were:

- To make the participants aware of certain laws and regulations regarding IPR in case of innovations in medicine and virology.
- To make the participants understand how IPR is a prerequisite for pharma companies for identification, planning, commercialization, and protection of invention.

Event

Does Management Study Help to Strengthen Entrepreneurship and Unicornship?

Speaker: Prof. (Dr.) Partha Sarathi Chakraborty, Group CEO, MCKV Group

Date and Time: 27th March 2023, 12:30 pm onwards (IST)

Organizer: Entrepreneur Development Cell in collaboration with MCKV Institute of Engineering and in association with IQAC, Raja Peary Mohan College

Organizing Committee

Chief Patron: Dr. Sudip Kumar Chakrabarty

Coordinator: Debasish Naskar

No. of Attendees: 154

About the Webinar

Aspiring entrepreneurs are constantly seeking guidance on how to navigate the challenges and maximize their chances of success. Management education has been recognized as a vital component in developing the necessary skills and knowledge for entrepreneurial endeavours. By organizing this seminar, the Entrepreneurship Development Cell aimed to provide a platform for students and aspiring entrepreneurs to gain insights into the relationship between management study and entrepreneurship. The seminar aimed to highlight the specific areas within management education that contribute to the growth and sustainability of startups and unicorn companies. Additionally, it aimed to address the challenges faced by entrepreneurs and discuss how management education can equip individuals with the tools and strategies to overcome those obstacles. After all the lectures and discussions of the resource persons, a question answer session between our participants and resource persons was conducted so that participants could get clarification about their queries and ambiguities.

Objectives of the Webinar

- To explore the role of management study in developing entrepreneurial skills.
- To understand how management education contributes to the growth and success of startups and unicorn companies.
- To analyze the specific areas of management study that have a significant impact on entrepreneurial ventures.
- To discuss the challenges and opportunities faced by entrepreneurs in the current business landscape.

Discussion Theme

- The Importance of Management Education for Entrepreneurs.
- The Role of Management Education in Fostering Innovation.
- Building Sustainable Ventures.

Event

State Level Seminar: Trade Secrets and IPR

Speaker: Prof. Biswadeep Dutta, Faculty Member in the Department of Commerce, Scottish Church College

Date and Time: 26th April, 2023; 12:30 pm onwards (IST)

Organizer: Intellectual Property Rights Cell in association with the IQAC, Raja Peary Mohan College

Number of Participants: 158

Organising committee:

Convenor (Programme Co-ordinator(s)):

Dr. Parna Banerjee, Assistant Professor, Convenor of IPR Cell

Members

Prof. Debasish Naskar, Prof. Arup Banik, Dr. Sonali Dapsi, Mrs. Shraboni Das, Prof. Indrajit Mondal, Prof. Arindam Mukherjee

About the Seminar:

The Intellectual Property Right Cell in association with IQAC, Raja Peary Mohan College, Uttarpara had organized a seminar on “Trade Secrets and IPR” 26th April, 2023 (Wednesday) from 12:30 pm in celebration of World Intellectual Property Day. The speaker of the seminar was Prof. Biswadeep Dutta, Faculty Member in the Department of Commerce, Scottish Church College. The speaker has given a thought-provoking speech on the various aspects of Trade Secrets and the relevance and significance of Intellectual Property Law in this regard.

Objectives of the Seminar were:

- To make the participants aware of certain laws and regulations regarding IPR in case of Trade Secrets.
- To make the participants understand how IPR is a prerequisite for businesses to protect their secret formulas, know-how and other key information that gives them a competitive edge.

Event

Seminar Topic: Sustainable Development: Lab to Land Application-A Research Methodology Series

Technical Session with lectures by resource persons:

- **Dr. Samit Guha**, Department of Chemistry, Jadavpur University
- **Prof. Naba K. Mondal**, Department of Environmental Science, University of Burdwan
- **Dr. Susovan Bhowmik**, Department of Chemistry, Bankura Sammilani College
- **Prof. Chittaranjan Sinha**, Department of Chemistry, Jadavpur University
- **Prof. Nitin Chatterjee**, Department of Chemistry, Jadavpur University

Date and Time: 28th April, 2023, 11:00 am, IST

Venue: Centenary Hall, RPMC

Organizer: Department of Chemistry, RPMC and Indian Photobiology Society, Department of Chemistry, Jadavpur University

Registration Link: <https://forms.gle/Ho218KPRGROJa1MH8>

Convenors: *Dr. Pallab Gayen and Dr. Krishnanka Shekhar Gayen*

No. of Participants: 139

After the welcome speech by Dr. Sudip Kumar Chakrabarty, Principal, Raja Peary Mohan College and felicitation to the speakers, the first technical session was started by our first speaker, Dr. Samit Guha, Assistant Professor, Jadavpur University. Dr. Guha had presented one of his research areas on 'Development of Near-Infrared Fluorescent Probes for Mitochondria Targeted Imaging and Health'. In his talk, we came to know how mitochondrial DNA was different from Nuclear DNA and its various features could be detected by some synthetic dyes using the concept of NIR fluorescence spectroscopy. He also showed us how synthetic rotaxane molecules could act as bio-mimic of the target molecules. The concept of NIR 1 window (650-900 nm) and its modern application on human health opened a new sight of thinking. And he ended his lecture through a valuable advice - "Keep your eyes and ears open".

The second speaker of the technical session -1, Dr. Naba Kumar Mondal, had started his lecture on 'Converting waste to wealth'. He made the audience to rethink the definition of 'Waste'. He showed us how he and his team had extracted many precious elements from 'so called waste' and used them in human welfare such as in water purification, preparation of biofertilizer, nanoparticles, mosquito repellents etc. His excellent delivering skills had really amazed all.

Dr. Susovan Bhowmik had introduced his Aqua army. He reminded us the importance of water conservation and general awareness through his presentation. He also showed us how water scarcity made human life miserable and uninhabitable in various states of India and even in some western districts of West Bengal. It really struck our mind to reduce liberal use of water and to conserve it in a domestic scale.

Prof. Chittaranjan Sinha made us to encounter with the 'Achievements of Sustainable Development Goals: Trace Level Analysis of Toxic ions'. Inorganic pollutants entered in biological systems through pesticides, fertilizers, medicines, drugs etc. And they are able to cleave the hydrogen bonds of DNA which leads to formation of genetic diseases. He enlightened how toxic metals and anions could be detected even in nanoscale and how to deal with them technically and analytically.

The final session by Prof. Nitin Chattopadhyay focused on the attitude of learning and teaching, highlighting the importance of pursuing excellence rather than solely focusing on achieving success. By pursuing excellence, success will naturally follow as a by-product, without having to constantly chase after it. The session emphasized the need to focus on doing one's best and constantly improving oneself, and success will eventually come. In addition to the technical sessions, there was a poster competition among the students – 13 groups participated and the best three entries were awarded prizes by the esteemed guests. The seminar ended with the vote of thanks from Dr. Pallab Gayen, Head of the Department of Chemistry and good take away messages and sweet memories. In conclusion, the seminar highlighted the importance of the lab to land application of sustainable development and the need for collaboration and participation of various stakeholders in implementing sustainable practices that are effective, equitable, and sustainable. The seminar emphasized the potential for innovative solutions to create a more sustainable future for all.

Seminar Notice

Department of Chemistry, Raja Peary Mohan College and Indian Photobiology Society, Department of Chemistry, Jadavpur University, will organize a one-day state level seminar on the theme, "Sustainable Development: Lab to Land Application-A Research Methodology Series" on 28th April, 2023. This is a part of the research methodology series lecture. Students of the Dept. of Chemistry are hereby directed to mandatorily attend the aforesaid seminar. The presence of all the faculties of the college is highly solicited in the seminar based on their convenience. All students of the college are cordially invited to attend the seminar based on their convenience and availability.

Seminar Details:

Sustainable Development: Lab to Land Application-A Research Methodology Series

Welcome Speech by Principal: 11.00 A.M. -11.05 A.M.

Speech by Coordinator, IQAC, RPMC: 11.05 A.M. -11.10 A.M.

Speech by President, Indian Photobiology Society: 11.10 A.M.-11.20 A.M.

Speech by Secretary, Indian Photobiology Society: 11.20 A.M.-11.30 A.M.

Technical Session with lectures by resource persons:

- Dr. Samit Guha, Department of Chemistry, Jadavpur University
- Prof. Naba K. Mondal, Department of Environmental Science, University of Burdwan

Sub: Permission for your association with the Department of Chemistry to organize A one day State Level Seminar on "Sustainable Development: Lab to Land Applications".

Sir,

It would be a great pleasure for us if you kindly agree to associate with the Department of Chemistry to organize A one day State Level Seminar on "Sustainable Development: Lab to Land Applications" at our campus either on 28th April, 2023 (Friday) or 3rd May, 2023 (Wednesday) as per your convenience. Moreover, we have planned to organize a poster competition among science stream students of our college on that day.

Looking forward for a positive response from your end.

Thanking you,

Yours faithfully,

Programme Schedule

One Day State Level Seminar on Sustainable Development: Lab to Land Application

Organized by

The Department of Chemistry, Raja Peary Mohan College

&

Indian Photobiology Society, Department of Chemistry, Jadavpur University

Programme Schedule:

Inauguration: 11.00 A.M.

Welcome Speech by Principal: 11.00 A.M. -11.05 A.M.

Speech by Coordinator, IQAC, RPMC: 11.05 A.M. -11.10 A.M.

Speech by President, Indian Photobiology Society: 11.10 A.M.-11.20 A.M.

Speech by Secretary, Indian Photobiology Society: 11.20 A.M.-11.30 A.M.

Technical session 1	
11:35 A.M. - 12:15 P.M.	Dr. Samit Guha Topic: <i>Development of Near-Infrared Fluorescent Probes for Mitochondria Targeted Imaging and Health</i>
12:20 P.M. - 1:00 P.M.	Prof. Naba K. Mondal Topic: <i>Converting waste to wealth</i>
1:05 P.M. - 1:25 P.M.	Dr. Susovan Bhowmik Topic: <i>Importance of water conservation & relevance of Aqua Army</i>
1:30 P.M. - 1:55 P.M.	Poster Presentation & Competition
1:55 P.M. - 2:25 P.M.	Lunch Break
Technical session 2	
2:30 P.M. - 3:10 P.M.	Prof. Chittaranjan Sinha Topic:
3:15 P.M. - 3:55 P.M.	Prof. Nitin Chatterjee Topic: <i>Attitude of Learning and Teaching</i>

Participant list (poster competition) cum score sheet

ONE DAY STATE LEVEL SEMINAR ON
SUSTAINABLE DEVELOPMENT: LAB TO LAND APPLICATION
ORGANIZED BY
THE DEPARTMENT OF CHEMISTRY, RAJA PEARY MOHAN COLLEGE
&
INDIAN PHOTOBIOLOGY SOCIETY, DEPARTMENT OF CHEMISTRY, JADAVPUR UNIVERSITY

DATE: 28.04.2022 (FRIDAY) VENUE: CENTENARY HALL, RPMC TIME: 11 AM ONWARDS

POSTER COMPETITION

POSTER NO.	TOPIC	PARTICIPANTS	DEPT.	SEMESTER	SCORE	REMARKS
1	The Photoelectric effect	Manjira Kundu & Joyita Dey	CHEM	II	8	
2	Biodegradable Polymers	Disha Chakraborty, Pratusha Das, Arpita Das	CHEM	IV	8	
3	Conversion of Plastic waste into Fuel	Priyanka Pal, Hiya Samanta, Rikta Das	CHEM	VI	6	
4	Food chemistry	Prema Koley & Sanchita Adak	CHEM	II	6	
5	Role of Plasmonics in Nanomedicines	Sudipta Patra, Himadri Kumar Chatterjee & Sanchita Santra	CHEM	VI	6	
6	Carbon Footprint	Trisha pal & Meghna Pal	CHEM	II	5	
7	Chemical Waste	Debjit Das, Trishita Dutta, Ananya Adak	CHEM	VI	8	
8	Biofuel	Bidisha Samanta & Priyanka Paul	CHEM	II	6	
9	Green Solvent	Piyas Das, Nil Jana, Subhadeep Saha	CHEM	VI	6	
10	The periodic table of elements of Green and Sustainable Chemistry	Sneha Adak	CHEM	VI	6

Heavy Metal Pollutants In Our Waters

Heavy metal pollution is a threat to human health, animals, plants, and the planet itself, and is mainly caused by industrialization and its consequences. While some of the metal pollutants come from fertilizers and sewage, the biggest source of heavy metal pollution definitely is industrialization.

Mercury (Hg), Cadmium (Cd), Arsenic (As), Lead (Pb), Aluminium (Al)

Every minute 23 hectares of available land are lost to...

EVERY YEAR WE LOSE 13 MILLION HECTARES OF FOREST that are home to more than 80% of all land-based species and provide livelihood to 1.6 billion people

The World is Losing precious Biodiversity at an alarming rate, pushing 22% of animals to the brink of extinction.

Combat Desertification and restore degraded land and soil

Halt Deforestation and restore degraded forests to Protect HABITATS

Take Urgent action to End Poaching and Trafficking of protected species

Event

Start-Ups: Opportunities and Challenges for the Young Entrepreneurs

Speaker: Dr. Bappaditya Biswas, Assistant. Professor, Dept. of Commerce, University of Calcutta

Date and Time: 2nd May 2023, 12:30 pm onwards (IST)

Venue: Centenary Hall, RPMC

Organizer: Entrepreneur Development Cell in collaboration with IQAC, Raja Peary Mohan College

Organizing Committee

Chief Patron: Dr. Sudip Kumar Chakrabarty

Coordinator: Debasish Naskar and Jyoti Das

Number of Attendees:121

About the Webinar

With the rapid advancement of technology and the increasing availability of resources, the entrepreneurial landscape has become more accessible than ever before. However, it is crucial for aspiring entrepreneurs to understand the opportunities and challenges associated with starting and running a successful start-up. This seminar aimed to bridge the knowledge gap and equip participants with the necessary skills and knowledge to navigate the entrepreneurial journey. After all the lectures and discussions of the resource person, a question answer session between our participants and resource person was conducted so that participants could get clarification about their queries and ambiguities.

Objectives of the Webinar

1. To provide an overview of the current start-up ecosystem, including emerging trends and opportunities.
2. To discuss the key challenges faced by young entrepreneurs and explore strategies to overcome them.
3. To highlight successful start-up case studies and learn from real-world experiences.
4. To inspire and motivate young individuals to pursue entrepreneurship and explore innovative ideas.

Discussion Theme

- Identifying and capitalizing on market gaps and trends
- Overcoming challenges and managing risk,
- Building a strong team and network, and
- Financing and funding options.

Speaker: Dr. Sudipta Saha, Associate Professor, Dept. of Microbiology & Biotechnology, Sister Nivedita University, Kolkata.

Date and Time: 2nd May 2023, 12:30 p.m. IST

Venue: Department of Physiology, Raja Peary Mohan College

Organizer: Department of Physiology, RPMC, in collaboration with IQAC, RPMC

Number of participants: 25

A one-day state level seminar, as a part of the research methodology series lecture, was organised by Department of Physiology on 2nd May, 2023 titled "A journey from research to patent: A researcher's Experience". The speaker was Dr Sudipta Saha, Associate Professor, Department of Biotechnology, Sister Nivedita University. Honours students of Department of Physiology and faculties of Physiology and Zoology department participated in the seminar.

Dr Saha shared his experience as a young researcher at the Indian Institute of Chemical Biology, Jadavpur. He described in a captivating and lucid language how he invented and patented a machine called sperm cell counter which measured vertical sperm motility compared to horizontal sperm motility measured by other instruments for the purpose. He stressed the importance of collaboration with Mathematicians and Engineers in building this machine and the difficulties faced by him in the process and how he overcame them. He explained why the publication of any patentable product could be done only after patent has been filed. Throughout the lecture not only he encouraged the students to take up career in science but also pointed out the pros and cons of it. The two-hour long lecture was followed by an engaging interactive session of the speaker with the undergraduate students.

Seminar Notice

A state level seminar will be organized by the Dept. of Physiology in collaboration with the IQAC, RPMC on 2nd May 2023 on the topic "A journey from a research to a patent: a researcher's experience". This is a part of the research methodology series lecture. The seminar will be held in the Department of Physiology of the college.

Students of the Dept. of Physiology are hereby directed to mandatorily attend the aforesaid seminar.

The presence of all the faculties of the college is highly solicited in the seminar based on their convenience.

All students of the college are cordially invited to attend the seminar based on their convenience and availability.

Seminar Details:

A journey from a research to a patent: a researcher's experience-A Research Methodology Series Lecture

Speaker: Dr. Sudipta Saha, Associate Professor, Dept. of Microbiology & Biotechnology, Sister Nivedita University, Kolkata.

Date and Time: 2nd May 2023, 12:30 p.m. IST

Venue: Department of Physiology, Raja Peary Mohan College

Organizer: Department of Physiology, RPMC, in collaboration with IQAC, RPMC

Event

State Level Seminar: History and Basic Concepts of IPR

Speaker: Prof. Chiranjit Ghosh, Assistant Professor in Commerce, Sahed Anurup Chandra Mahavidyalaya

Date and Time: 11th May, 2023; 12:30 pm onwards (IST)

Organizer: Intellectual Property Rights Cell in association with the IQAC, Raja Peary Mohan College

Number of Participants: 84

Organising committee:

Convenor (Programme Co-ordinator(s)):

Dr. Parna Banerjee, Assistant Professor, Convenor of IPR Cell

Members

Prof. Debasish Naskar, Prof. Arup Banik, Dr. Sonali Dapsi, Mrs. Shraboni Das, Prof. Indrajit Mondal, Prof. Arindam Mukherjee

About the Seminar:

The Intellectual Property Right Cell in association with IQAC, Raja Peary Mohan College, Uttarpara had organized a seminar on “**History and Basic Concepts of IPR**” on **11th May, 2023 (Thursday)** from **12:30 pm**. The speaker of the seminar was **Prof. Chiranjit Ghosh, Assistant Professor in Commerce, Sahed Anurup Chandra Mahavidyalaya**. The speaker elaborated about the emergence of Intellectual Property Right as well as the historical background of it along with some basic concepts of IPR.

Objectives of the Seminar were:

- To make the participants aware of the historical background of IPR.
- To make the participants recapitulate the basic concepts of IPR.

Event

Seminar Topic: One Day Research Methodology in Social Sciences

Organizer: Department of Economics in association with Research Sub-committee and IQAC, Raja Peary Mohan College

Date and Time: 12th May, 2023; 11:00 am

Venue: Hall-2, RPMC

Members of Organising committee:

Dr. Mala Bhattacharjee (HOD), Dr. Rajrupa Mitra, Soumitra Gayen, Moumita Maitra

No. of participants: 98

Objective of the Workshop:

- To describe various types of methodology used in social science research.
- To relate the study as a multidisciplinary research methodology.
- To sensitise the students about importance of research methodology in higher study.

The Department of Economics in association with Research Sub-committee and IQAC, Raja Peary Mohan College, Uttarpara, Hooghly had organized one day Workshop on 12th May, 2023. The topic of the workshop was "**Research Methodology in Social Sciences**". The speaker of the workshop was Dr. Saibal Kar, Professor of Economics, Centre for Studies in Social Sciences, Calcutta and Director (Hony.), Eastern Regional Centre, ICSSR.

Event

Seminar Topic: Research Methodology Series Lectures

Lecture 1: “*In Silico* tools to predict structure and functions of proteins”

Speaker: Dr. Samudra Prasad Banik, Assistant Professor, Department of Microbiology, Maulana Azad College

Lecture 2: “Alternative therapeutic approaches to address drug resistance in leukaemia”

Speaker: Dr. Nabendu Biswas of the Department of Life Sciences, Presidency University

Date and Time: 13th May 2023, 12:00 p.m. IST

Venue: Department of Physiology, Raja Peary Mohan College

Organizer: Department of Physiology, RPMC, in collaboration with IQAC, RPMC

No. of Participants: 23

A state level seminar, as a part of the research methodology series lectures, was organised by the Department of Physiology, Raja Peary Mohan College on the 13th May, 2023 where lectures relevant to physiology students were delivered by two eminent teachers and scientists. The seminar was started with welcome address by Dr. Sanjukta Bhattacharya, Co-ordinator, IQAC, Raja Peary Mohan College.

The first lecture titled “*In Silico* tools to predict structure and functions of proteins” was delivered by Dr. Samudra Prasad Banik, Assistant Professor, Department of Microbiology, Maulana Azad College. Dr. Banik discussed how structures and functions of proteins obtained from different sources can be determined with a help of bioinformatics. He demonstrated how different software are used in the process. In the second lecture titled “Alternative therapeutic approaches to address drug resistance in leukaemia” Dr. Nabendu Biswas of the Department of Life Sciences, Presidency University discussed about drug resistance in cancers specifically leukaemia. He shared the data generated in his laboratory to overcome resistance by newer drugs.

Both the speakers were teachers involved in active research. During the two-hour long deliberations, they smoothly stirred the undergraduate students from their current level of understanding of the subject to the arena of hard-core modern-day research. The students gained an insight into the workings of “dry lab and wet lab” and how one complements another. The session ended by engaging discussion between the students and the speakers.

Seminar Notice

A state level seminar will be organized by the Dept. of Physiology in collaboration with the IQAC, RPMC on 13th May 2023. This is a part of the research methodology series where two lectures will be delivered in the area of *in silico* strategies in protein research and drug resistance in leukaemia. The seminar will be held in the Department of Physiology of the college.

Students of the Dept. of Physiology are hereby directed to mandatorily attend the aforesaid seminar.

The presence of all the faculties of the college is highly solicited in the seminar based on their convenience.

All students of the college are cordially invited to attend the seminar based on their convenience and availability.

Seminar Details:

Event

Designing an Entrepreneurial Venture

Speaker: Dr. Pinaki De, Associate Professor, Dept. of English, Raja Peary Mohan College

Date and Time: 18th May 2023, 12:30 pm onwards (IST)

Organizer: Entrepreneur Development Cell in with IQAC, Raja Peary Mohan College

Organizing Committee

Chief Patron: Dr. Sudip Kumar Chakrabarty

Coordinator: Debasish Naskar, Jyoti Das

Number of Attendees: 91

About the Webinar

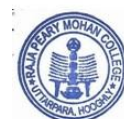

Entrepreneurship plays a crucial role in fostering economic growth, innovation, and job creation. In today's dynamic and competitive business environment, aspiring entrepreneurs require a comprehensive understanding of the intricacies involved in designing and launching a successful venture. The seminar addressed this need by offering guidance and knowledge to students and aspiring entrepreneurs.

Objectives of the Seminar

1. To familiarize participants with the fundamental principles of entrepreneurship.
2. To provide insights into the process of designing and planning an entrepreneurial venture.
3. To discuss effective strategies for market research, product development, and branding.
4. To inspire and motivate students to embrace entrepreneurship as a viable career path.

Discussion Theme

1. Importance of Ideation: Dr. De emphasized the significance of identifying innovative ideas that align with market needs and present viable business opportunities. He discussed various ideation techniques and shared real-world examples of successful entrepreneurial ideas.
2. Business Planning and Execution: The session explored the essentials of developing a comprehensive business plan, including market analysis, financial projections, and operational strategies. Dr. De highlighted the importance of strategic thinking, adaptability, and effective execution to translate ideas into profitable ventures.
3. Marketing and Branding Strategies: The discussion focused on the role of marketing in entrepreneurial ventures. Dr. De discussed various marketing techniques, digital platforms, and branding strategies to create a competitive edge in the market. He emphasized the need for building a strong brand identity and engaging with customers effectively.
4. Overcoming Challenges and Ensuring Sustainability: The session delved into the potential challenges faced by entrepreneurs and the strategies to overcome them. Dr. De

Seminar Topic: One Day Seminar on Research Methodology in Science

Organizer: Research Sub-committee in association with IQAC

Registration Link: <https://forms.gle/wPj6qCf8kqHsj5Mj8>

Date and Time: 19th May 2023; 11:30 am at the Centenary Hall, RPMC

No. of participants: 78

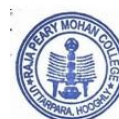

Lecture Title 1: Development of a Research Ecosystem in Higher Education Institute: A Journey from the Scratch

Speaker: Dr. Samik Bindu, Assistant Professor, Department of Zoology, Cooch Behar Panchanan Barma University.

Lecture Title 2: How important is scientific planning and analytics for successful project delivery

Speaker: Dr. Soumik Chatterjee, Senior Data Scientist, Ongil India Pvt. Limited

A one-day seminar on Research Methodology in Science has been organized by the Research Sub-committee in association with IQAC, RPMC, with two lectures on the basics of research methodology and data analysis in the field of science. The seminar was attended by faculties of RPMC as well as faculties of various other colleges. Dr. Samik Bindu shared his personal experience in setting up a biological science research facility, from scratch, in the department of Zoology, Cooch Behar Panchanan Barma University with the state-of-the-art infrastructure facilities. He lucidly introduced the different aspects of research methodology. He explained the different modalities of scientific research, technical aspects of grant writing project application, information of potential funding sources, setting up research laboratory, application to various regulatory authorities of the Ministry of Science and Technology, Dept. of Biotechnology, Govt. of India for technical and ethical clearances as well as permissions about miscellaneous aspects for setting up a new research facility and subsequently conducting research therein. Technical discussions on experimental designing, hypothesis formulation, experiment designing, hypothesis testing, statistical data analysis, manuscript preparation and communication were done in an interactive mode during the lecture. Dr. Soumik Chatterjee discussed about the intricacies of the statistical aspects of scientific research projects, sample size calculation, setting up of inclusion and exclusion criteria, determination of criteria for sample/data collection and data analysis, Both the lectures were followed by interactive technical discussion sessions where the speakers interacted with the faculties and motivated them to set up a research ecosystem and thereupon pursue research in higher education institution. The lecture attracted faculties from diverse fields in pure science, life science as well as social science owing to its immense relevance.

Seminar Notice

This is for the information of all concerned that the Research Sub-committee, in collaboration with IQAC, is looking forward to organize a **One Day Seminar** on “**Research Methodology in Science**” on **19th May 2023 (Friday) from 11:30 am onwards at the Centenary Hall, RPMC.**

The seminar will specifically focus on the intricate aspects of Research Methodology including grant writing, project application, information of potential funding sources, setting up research laboratory, application to various regulatory authorities of the Ministry of Science and Technology, Dept. of Biotechnology, Govt. of India for technical and ethical clearances as well as permissions about miscellaneous aspects for setting up a new research facility and subsequently conducting research therein. Technical discussions on experimental designing, statistical data analysis, manuscript preparation and communication will also be included.

Faculties of the Science Departments are especially directed to attend the aforesaid seminar

The presence of faculties of Arts and Commerce disciplines is highly solicited in the seminar based on their convenience.

Event

Workshop Topic: One Day Workshop on Research Methodology in Humanities and Social Sciences

Organizer: Research Sub-committee in association with IQAC

Date and Time: 20th May 2023; 12:30 pm at the Centenary Hall, RPMC

Lecture Title 1: Research Methodology

Speaker: Dr. Pinaki De, Associate Professor, Department of English, Cooch Behar Panchanan Barma University.

No. of participants: 120

The workshop started at 12:30 pm with the welcoming of the dignitaries at dais by Dr. Abu Saleh, an Assistant Professor of the Department of English and Joint Coordinator of the Research Sub-Committee of the Raja Peary Mohan College. The dignitaries on the dais were Shri Susanta Kumar Biswas, Associate Professor, Department of Mathematics & Officer in Charge of the Raja Peary Mohan College on that day, Dr. Pallab Gayen, Assistant Professor, Department of Chemistry and the Secretary of the Teachers Councils of the Raja Peary Mohan College and the resource person of the workshop Dr. Pinaki De, Associate Professor, Department of English of the Raja Peary Mohan College. The workshop was inaugurated with the opening remarks by Shri Susanta Kumar Biswas and Dr. Pallab Gayen.

Dr. Pinaki De began his lecture by sharing his research works and his experiences in order to explain why is research important? And how research is to be done? He explained the distinction between Method and Methodology, where he said that method is identifiable with quantity whereas methodology is identifiable with quality or rational matter in the research.

Further, he explained different types of research or per se research methodology. Advancing further he showed and explained what research compromises? He laid special emphasis on literature review by giving examples from his own works and explained as how to do literature review so that a researcher can find the literature gaps which will further help the researcher in doing good research. However, he cautioned that the literature review should never be a summary of literatures.

Furthermore, he said in research another crucial part is hypothesis which he explained with various examples so that the participants get clear idea about it. Following, this he talked about research questions and guided as per his experience as how to frame research questions. Finally, he explained and the correct method for references however, there are different styles for references.

After his lecture there were a broad discussion session with the faculty present and students. Many faculties shared their research experiences and hurdles. Few students raised some important questions surrounding the topic. With this the programme ends with the vote of thanks which was given by Dr. Santanu Rana, an assistant professor of Zoology and the coordinator of the Research Sub-Committee of the College.

The workshop was well received by the faculties and students and was quite successful in its objectives. It has explained how to bring clarity about research methodology in Humanities

and Social Sciences. It has also elaborated on various steps involved in Research Methodology. Further, with the vast knowledge of the resource person it has focused on how to help improve the technicalities and research skills. Most importantly it has encouraged the participants to pursue research. Here are some glimpses of the workshop in discussion.

Workshop Notice

This is for the information of all concerned that the Research Sub-committee, in collaboration with IQAC, is looking forward to organize a workshop on "Research Methodology in Humanities and Social Sciences" on 20th May, 2023 (Saturday) from 12.30 PM onwards at the Centenary Hall of the College.

The workshop will specifically focus on the general aspects of Research Methodology in Arts and Social Sciences with a focus on use of technology. It will also try to talk about archiving which is a crucial part of the Research methodology now.

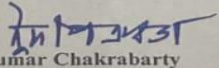

Faculties of all Arts, Social Sciences and Commerce Departments are especially directed to attend the workshop.

Presence of faculties of Science Departments is also highly solicited in the workshop based on their convenience.

Interested students of the college can also attend the workshop.
